## Customer Reviews

I purchased this Stampy and the Iron Golem: Novel Inspired by StampyLongNose (Stampy's Super Secret Sidequests) (Volume 2) book along with 2 others (part 1 & 3) for my daughter for her 7th birthday. She LOVES watching the StampyLongNose videos on YouTube. These books are perfect for her. They are a soft cover book and they aren't too long (30 pages), which I personally like. I do have to help her a little with some of the reading but I don't mind that. The only complaint I have about these books is there are NO pictures in the book. They could have threw in a few pictures but nonetheless they are still great books. My daughter and I read them at bedtime, every night I learn something new about this little guy. I must admit when I first heard and saw the videos I would cringe at the sound of his voice but I have grown to love him and his lovely videos. Definitely recommend this books. If your kid(s) like Stampy they will like this book.

It was a awesome book. I gave it a five because it was action packed fun. I also like to which StampyLonghead. I recommend this book if you like stampyLonghead and if you like action

It was a awesome book you know you really put lots of effort in to it. something you can add is when the iron golem is reborn he should start attacking stampyLongnose then start attacking the mobs and that it my name is Jacob and I am really looking forward to reading your next book but I can't get it now because my Wi-Fi is not working now it is time for me to go to bed. soooooooooooooo I will get it in the morning so goodnight if it is night for you right now.

The book has so much adventure and blood. But of course you can make an iron golem by 4 blocks of iron in a T and a pumpkin on the top of the middle of the T. I LOVE DIS BOOK
