Excelent Book

Excellent !!

C+

this seems to be a pretty lucid discussion of Bandler's work--and finally he has hired a proof reader! Not amazing (is there ANYTHING new in NLP?) but is a pretty good read. If you can get your hands on the often banned 70s "trance formations" get it. It will make a lot more sense, since Bandler is essentially trying to make a newer version in this book

Richard Bandler is an NLP legend and a very personable performer of his craft. I enjoyed the book and the techniques, if you found out what works for you, changing your mood or having happiness on a "tap" is really easy.

Simply a wonderful book. It is more than worth the cost just to get the super DVD. In two words: Buy IT! Steve Austin
