# Soft Tissue Augmentation: Procedures In Cosmetic Dermatology Series, 4e

## Synopsis

Part of the practical and dynamic Procedures in Cosmetic Dermatology Series, Soft Tissue Augmentation, 4th Edition, brings you up to speed with today's best uses of traditional and new fillers. This well-organized text provides current, authoritative guidance on new and novel non-permanent fillers, darker skin, platelet-rich plasma, the tower technique, and much more. The renowned author team of Drs. Alastair and Jean Carruthers offers evidence-based, procedural how-to's and step-by-step advice on proper techniques, pitfalls, and tricks of the trade, so you can successfully incorporate the latest procedures into your practice. Features a well-organized format with key points lists, pearls, and case studies as they appear in practice. Expert Consult eBook version included with purchase, which allows you to search all of the text, figures, and references from the book on a variety of devices. Contains new information on the Emervel family, safe fat transplantation, permanent fillers, temple reflation, neck and chest, vascular compromise, and the tower technique of filler injection. Splits chapters into separate sections on different types of fillers for ease of reference, and includes a new section on complications. Includes many new images and procedural videos that depict exactly how to perform the techniques.

## Customer Reviews

Dr. Jean Carruthers, MD, FRCS (UK), FRCS (C), Diplomate of the American Board in Cosmetic

Surgery, Fellow of the American Society of Ophthalmic Plastic and Reconstructive Surgery. Dr. Jean Carruthers is a Cosmetic Surgeon and a Clinical Professor of Ophthalmology with the Faculty of Medicine at the University of British Columbia (UBC). Dr. Carruthers has lectured worldwide on a variety of subjects pertaining to cosmetic ophthalmology, including the cosmetic use of the BOTOX<sup>®</sup> procedure, which she co-founded with her husband, Dr. Alastair Carruthers, in 1987. Since this time, they have remained at the forefront of BOTOX<sup>®</sup> research, development and education, publishing numerous articles using their data. BOTOX<sup>®</sup> inhibits nerve impulses in muscles that cause everything from frown lines and wrinkles to sweating. Today, BOTOX<sup>®</sup> is the most commonly performed cosmetic procedure in North America. They are now also researching the cosmetic use of the newest therapeutic neurotoxin, Botulinum type B, commercially produced as MyoBloc. Dr. Carruthers has published more than eighty peer reviewed scientific articles and twenty-eight scientific book chapters on a variety of topics, including the use of botulinum toxin and soft tissue augmenting agents, aesthetic lasers and cosmetic laser blepharoplasty. She is an International Editor for such publications as Dermatologic Surgery, the Journal of Cosmetic Laser Surgery and the American Journal of Cosmetic Surgery. Dr. Alastair Carruthers, M.A., B.M., B.Ch, FRCP(LON), FRCPC Dr. Alastair Carruthers is a Cosmetic Dermatologist who operates his own clinical practice (Carruthers Dermatology Centre Inc.) in Vancouver, BC. He is also a Clinical Professor of Dermatology with the Faculty of Medicine at the University of British Columbia (UBC). During his 20 years of practice, Dr. Carruthers has made several major contributions to the field of dermatology. Foremost among these was the use of the BOTOX<sup>®</sup> procedure in cosmetic applications, a discovery he made with his wife, Dr. Jean Carruthers, in 1987. Since this time, they have been at the forefront of BOTOX<sup>®</sup> research, development and education, publishing numerous articles using their data. Today, BOTOX<sup>®</sup>, which inhibits nerve impulses in muscles that cause everything from frown lines and wrinkles to sweating, is the most commonly performed cosmetic procedure in the world. Dr. Carruthers has also made significant advances in the area of Tissue Augmentation. These materials, both temporary and permanent, are used to lift and support the structures beneath the skin. In 1998 Dr. Carruthers was the first dermatologist in North America to begin injecting Artecoll. Through the extensive research performed in their Vancouver based facility, Drs. Carruthers continue to have articles published and lecture extensively on these subjects. With over 100 published articles to his credit, Dr. Carruthers is a member of the Editorial Board of "Dermatologic Surgery"; He is also a member of several national and international associations, including the American Dermatology Association and the Canadian Dermatology Association, where he served as

President from 1998 to 1999. In addition, he has been elected Vice President of the American Society for Dermatologic Surgery. Dr. Carruthers has also contributed extensively to studies about the relationship between skin cancer and sun exposure.
