The Flute Of God

Synopsis

Now this book can show you the truth about yourself as Soul: We can look forward to a greater life than merely reliving former experiences, by becoming a conscious Soul handling the environment, body, life, spirit, or whatever you might call the ECK power, and participating in events of our own creation. Then life becomes the pleasure it should be and could have always been. (chapter 1)

Discover the secret of imagination, the divine faculty of Soul which you can use to transform your life. Learn the seven fundamental spiritual laws which allow you to create your future in harmony with the universal Spirit, for the highest good of all concerned. If you want to master your destiny and become a conscious Co-worker with God, this book can show you how to do it - by listening to the guidance of Divine Spirit. Eckankar is ancient wisdom for today. Its teachings, which resurfaced in 1965, emphasize the value of personal experiences as the most natural way back to God.

Whatever your religious background, they show how to look and listen within yourself - to expand your consciousness and enjoy spiritual freedom. See for yourself - perhaps for the first time - how to lead a happy, balanced, and productive life. And put daily concerns into loving perspective.

Author of more than thirty-five books with millions of readers worldwide, American Paul Twitchell introduced the spiritual teachings of Eckankar in 1965. He toured the globe teaching how people today can reestablish contact with God. His books are spiritual classics. Each year, these ancient teachings continue to attract thousands of people.

This is an excellent discussion of the movement of soul from the human consciousness into higher states of awareness. Those who have read the works of Paul Twitchell know that he experienced these higher states and is therefore qualified to write about them. This is because you can't fake spiritual mastership. Someone in the human consciousness pretending to reside in the high spiritual realms will ring like a cracked bell. Their writings will divulge their lack of experience to those familiar with these higher states. In my view, it is a waste of time to read books about the higher states of consciousness written by those with only an academic interest in them. Those ready to move into or experience these higher states of awareness will RECOGNIZE the validity of what has been written. This is because one quality of Soul is the ability to RECOGNIZE truth. Recognition is related to soul's quality of KNOWINGNESS. In other words, soul has the ability to know and does not rely on thinking or reasoning which is the method used by the mind. Paul Twitchell only had a relatively brief period of time to put into writing the knowledge he gained from visiting the higher realms. He was not concerned with the practice of footnotes followed by those in the academic world - most of whom reside in the mind. Twitchell's objective was to preserve the knowledge and wisdom he gained so that others could travel their own unique path back into the higher states of awareness. If you have a desire to move beyond the limited awareness of the human consciousness with all its inconsistencies and frustrations, you may find this book to be a valuable step toward your objective.

A most serious, and I would say even quite intellectual effort to put into words many things that tend to defy words. Reminds me of the writings of David Hawkins. For me personally it was very often frustrating because I wanted particular elaboration on a stunning point but usually didn't get it, ... or, .. I just didn't quite get it, if it was there. This is not Reader's Digest. It's a tough read. But I sure kept at it, .. slowly. And I ate it up. A fascinating, but difficult read that I do recommend for the serious reader and seeker of higher truth. But I really can't honestly give it 5 stars because I feel it could have been somewhat simplified for the benefit of most of us.

The Flute of God, by Paul Twitchell, is a primer on the Spiritual Laws of Life. (I also recommend a book by the same name: "Spiritual Laws of Life") Just now, I opened the book at random to give a flavor of what is contained within. On p. 129, Paul writes, "This mental attitude [dwelling in the secret place of the most High] is of immense value in setting the individual free from worry and anxiety; as a consequence, our lives become more efficient and happier." That pretty much expresses my experience with it in a nutshell. The Flute of God is about who you really are--Soul, immortal and creative. Unlike some other teachings, it is NOT about how to manifest things,

although you will learn how to be more creative and better care for yourself. It's about why you are here--to serve not just yourself, but all life. It teaches you the real meaning of "Seek first the Kingdom of God and all else shall be added unto you." This is not an easy read, but it is a compelling one. It is clear that Paul gathered wisdom from many sources--both physical and spiritual--and did an amazing job of converting these universal truths into a words. These things are a challenge to get your mind around! But somehow, he managed to get the job done. If you want to run your life better, read this book--and then share it with someone you love!

According to Paul Twitchell, the author of *The Flute of God*, Spirit or Divine Spirit is a creative Current from the heart of God, which creates, sustains and dissolves all matter in due course. This Spirit can be seen as Light and heard as Sound by whoever is open to it. We are totally dependent upon this Divine Current of God. But most people are unconscious of this fact. To work with this Spirit to better our lives, we need to understand its nature and laws. For instance, the Law of Cause and Effect is a fixed law of the Holy Spirit that must be obeyed by all or adverse consequences would follow, according to Twitchell. We are all made in the image and likeness of God; that is the higher side of every human being. This is what Twitchell calls Soul. According to him, when we identify with the body, we become paralyzed with fear and so cannot enjoy the best of life that the children of God are entitled to and capable of. This is clearly stated on page 140: "The true purpose of any seeker is to know Soul as his beingness. This leads into wisdom and one becomes immortal. Those who know that the source of intelligence is Soul, attain immortality; those who do not know it remain attached to the material body and senses and are therefore subject to birth and death. Become conscious of the immortal Soul. When this consciousness of the immortal self is gained, all fear vanishes. Fear of death rises from ignorance, which makes us forget our immortal nature and identify ourselves with the material body, which is subject to death." This book is to be read several times before one could absorb all the esoteric wisdom within its golden pages. Even though I have read it for over thirty times and still browse through it now and then, the deep spiritual truths it contains still ring with freshness each time I open it. I truly recommend this book to anyone who is seriously looking for proper understanding of themselves, the psychology of Spirit and how to work with it, as well as gaining the higher knowledge of God. Twitchell also introduces and discusses HU, the ancient, holy name of God. This powerful word goes hand in hand with learning the deeper wisdom of God. You can learn why our dreams often don't come true, the effect of wrong thinking to our overall wellbeing as well as how to manifest our heart's desires, and many more from this intriguing book.
