Julia Snegireva is a Russian artist and illustrator who lives in Moscow with her husband and two daughters. Drawing inspiration from her travels across Russia, ornate Slavic artistry, and her native Ural Mountains, Julia produces intricate mandalas and beautifully detailed patterns.

I wish I could give this book a higher rating because the designs are very nice. However, the paper is flimsy and there are design elements that are not divisible so you cannot stripe or trio colors without having an "odd man out." To me, that really limits options for coloring. The designs are hand drawn so you will see that nothing everything is picture perfect as if it was computer generated. I do

appreciate the perforated pages and the designs being on one side of the page.

This is my favorite mandalas coloring book. I started to focus on this shape last fall and went through a number of other mandala books and kits. I learned a lot about color schemes, etc. But this book has the right level of everything: variety, widths of coloring spaces, black accents, and so on. I am buying a second copy today. Like other colorists, I have found this same artist's "Best of" book disappointing and not challenging (or too small) but this book is truly perfect.

I am just beginning to try Adult Coloring Books for stress and pain relief. This is a lovely book, chock full of challenging designs. I am being humbled by the fact I have little color sense! So my coloring pictures are less than what I hoped to achieve, but I'm learning.

I love to color, and the art in this book is really beautiful and inspiring. A lot of the mandala books out there have the same art, but this book is different, and I'm really enjoying coloring it. The designs are intricate, but not too difficult to color. Best of all, the pages are perforated, so I can frame some of my creations to give as gifts. Definitely recommend!

I love it. I love coloring mandalas and this book is perfect for all you mandala lovers out there. I will have so much fun coloring these. I would definitely purchase this book for anyone who loves coloring mandalas. It has lots of different designs and patterns on each one. I love having so many pictures to chose from to color.

I love these coloring books and will buy more, like that they are not so small in the lines for coloring I like the designs bigger like these are. Great book.

I am new to the adult coloring world but have fallen in love with it! Love the Zendoodle line!

I love coloring mandellas. So this is a great book. I tear all my pages out to color, because I use many different types of pens and brush pens. These are very nice and fun to color.
