The order is messed up.

Got me a 750, and surprisingly helpful. I would recommend in conjunction with the AP World History book too. The practice exams are also very similar to the actual test, which is great.

Good, thank you!

Whenever I tried to read this book, I had to force myself to do it and I dreaded it so much. It is extremely boring and bland and includes a lot of unimportant information. It spends so much time repeating the same exact thing for each civilization and does not go in depth on the actually important things. I took AP World History and loved it. It was one of my favorite subjects. But somehow reading this made me start to hate world history. I also don't like how the book includes only two practice tests. I feel like it would be a lot more beneficial if there was at least one more practice test, especially for the price.

I purchased this study book for my daughter to take the World history subject test for SAT and she studied very hard. The SAT test questions were not what was in the book. Does this book need to be updated? Waste of time and money.
