The Wills & Trusts Kits for Dummies explained difficult to understand legal rules and laws for our matured selves, or the not prepared early health or death delimas of our parents, that often falls on young adults just getting their own lives underway. I saw the need for my grandsons, but after researching some of my own and recent purchases, I spent too much time trying to show the need to respond, as if the Courts of the future demanded they prove their actions, and whether the choices were legal or not. There was confusion and hurt feelings beginning to surface, so I quickly had directly mail copies of these amazing Dummies siries to each one of them. The progress is slowly growing forward at everyone's peace, including their still young parent, who needs to be kept in the loop of choices. The lost of the other stept-parent just a couple of years earlier was too difficult to handle without a good and reliable,reference guide book. Thanks for quick delivery of these books. BB

this is a useful text for folks needing such services as expensive estate planning and end of life materials for getting ones' affairs in order. It served us as a supplement and gave us the baseline for planning.

I haven't dug into this yet--but will start ASAP. Looks great-has answers to common questions & I can get a feel for what my attorney will need to make sure we will do everything correctly (especially future care for my pets)...& bequests to family and organizations we follow.

Very heplfull. This is exactly the book I needed. Thank you for a prompt.delivery.

Good for understanding and ideas to consider, saves many expensive hours meeting with your attorney

Bought this for a friend and he found it extremely useful. Since I knew the importance of a will,

convinced him to have this book. Time of delivery was very good and the shape of the book was in excellence condition.

Decided to pay the overpriced attorney just to be certain I was well covered in my state.

In the book, all chapters are confused, appendixes A and B are lost.
