Written by well-known, trusted authors Sheila Sorrentino and Bernie Gorek. The nursing assistant's responsibilities related to the care of residents in long-term care facilities are described, as identified in the OBRA regulations, both in scope and sequence. Only OBRA-mandated content or material that is essential to understanding that content is included, making this the perfect textbook for courses with limited time and resources. Written in an easy-to-understand style at a 7th-grade reading level. Over 60 procedures stress quality of life and are divided into pre-procedure, procedure, and post-procedure sections for easier learning. Hundreds of full-color photos and drawings engage students' interest and clearly show how to perform important tasks. Caring About Culture boxes provide insight and awareness about the practices of various cultures to help students provide culturally sensitive care to residents. Delegation Guidelines describe what the student needs to know and understand before accepting delegated tasks. Safety Alerts emphasize important actions required to ensure the safety of both residents and staff. Procedures included in the National Nurse Aide Assessment Program (NNAAP) are highlighted to help students focus their study for this exam. Body structure and function are integrated in boxes to help students better understand associated health problems. What You Will Learn and Key Terms with definitions help students focus on essential information to prepare them to understand chapter content. Chapter review questions help students evaluate what they've learned.

I bought this book for my CNA course because I didn't want to return the one "provided" by the school. The book is good for the most part. However, it needs update on the CPR section. It doesn't comply with the current (2013) standards. Also, there are some other sections that need updating for procedures that are not performed by CNAs anymore. Overall, I recommend the book and the workbook too; just keep in mind the needed updates.

Was so happy when I seen that these books were on this website. My students enjoyed them and the price awesome !!!

I received my purchase in good condition and in a timely manner. I would recommend this service to others. Thank you.
