Water In May

Synopsis

Fifteen-year-old Mari Pujols believes that the baby she's carrying will finally mean she'll have a family member who will love her deeply and won't ever leave her—not like her mama, who took off when she was eight; or her papi, who's in jail; or her abuela, who wants as little to do with her as possible. But when doctors discover a potentially fatal heart defect in the fetus, Mari faces choices she never could have imagined. Surrounded by her loyal girl crew, her off-and-on boyfriend, and a dedicated doctor, Mari navigates a decision that could emotionally cripple the bravest of women. But both Mari and the broken-hearted baby inside her are fighters; and it doesn't take long to discover that this sick baby has the strength to heal an entire family. Inspired by true events, this gorgeous debut has been called "heartfelt, heartbreaking and yes! even a little heart-healing, too" by bestselling YA novelist Carolyn Mackler. [Read more](#)

Customer Reviews

****STARRED REVIEW**** "Full of spot-on cultural texture and packing an emotional punch, this is an unusual take on the teen-pregnancy problem novel... Williams presents her experience in a way that demands not pity but respect while also reminding readers of Mari's heartbreaking youth and innocence at unexpected times...Fierce and tender—and absolutely worth reading."

Isma Williams is a former pediatric cardiologist at Columbia University Medical Center in New

York City. As the daughter of a Cuban immigrant, partially raised by her abuelos, her background helped her understand the many Maris she met along the way. Water in May is her first novel. ã Æ
