Customer Reviews

The ninth edition Being a Nursing Assistance is to enrich learning, enhance critical thinking skills and improve client care.

As a CNA Instructor, I found this book to be an excellent resource. I used the pictures as added bonus question to go w/ the course selected text manual. I recommend it highly for instructors who give just a little more!!

purchased for my wife and she likes it and has learned a lot so far, great purchase

excellent book, thanks

I was very happy to have received my book in just a few days from when I had ordered it. 100% perfect condition, no damage in shipment. I'd order again from here.

I ordered a used workbook. When I received it, it was in excellent condition. Thank you very much.

Great resource for instructors to use the pages within to make learning not only fun, but memorable! I've received great feedback from our Hospice Aides who have been working for many years. I began using these worksheets along with their inservices and they love it! This is not only a good resource for the classroom during NA training and certification, but also for those who've graduated and need to keep up their skills!

Answers marked on all the pages. Not useable as a workbook.
