Frozen - Recorder Fun!: Pack With Songbook And Instrument

Synopsis

(Recorder). This Recorder Fun! pack makes learning to play recorder easy, even if you've never played before! In no time at all, you'll be playing your favorite songs from the hit Disney movie Frozen . The pack includes a high-quality beginner's recorder with the feel and tuning of a pro model, plus a songbook with easy instructions. The book features a fingering chart, coloring pages, and easy versions of the following songs: Do You Want to Build a Snowman? * Fixer Upper * For the First Time in Forever * Frozen Heart * In Summer * Let It Go * Love Is an Open Door * Reindeer(s) Are Better Than People.

Customer Reviews

I bought this as the BEST 4 year old birthday present ever for my niece. It went over exactly as I wanted. She LOVED it; her parent's not so much. I appreciate that it shows you how to play each note so that a 4 year old is actually able to teach herself (on a basic level) how to play the recorder and serenade her loving family daily to the sounds of the Frozen movie. In all, the most wonderful, GREATEST payback gift for all the noisy sound toys they ever bought my daughters with a BONUS TWIST that my niece really LOVED it!

This is the perfect gift for your nieces. IF you want to see the look of fear and disgust in the face of a parent, this is the gift for you. Kids will love it. They will open it and immediately began playing with no sense of rhythm, volume, or regard for anything musical. And you will sit back and smile because it is not going home with you.

This is a book I purchased for my daughter, who really loves Frozen a lot, because since I took a bottom line position of "if you expect me to pay for guitar lessons you need to show me you can pull out the discipline by finishing learning the recorder," I figured it would be the decent thing for me to do to buy her a book geared more towards her interests. We actually both agree on this rating, and even have similar reasons for it. I am going to be comparing this book to "It's Recorder Time," which I think does a better job of teaching the notes at a pace that is more manageable for a child who is either being taught or trying to go through it themselves. My daughter is 10, she was a year younger when she was trying to learn using "It's Recorder Time." She had my assistance with that, as it was the instrument she chose to learn during the brief period of time we were homeschooling, but she found the song selection to be so boring, and the lack of illustrations to be no fun whatsoever, and she was putting up so much passive aggressive resistance, that I quickly decided it was unessential and doubled down on the essentials that needed to be covered for standardized testing. There was a ton of dissatisfaction with that book from her end. From mine, I went through and used the entire thing, and found it to do a good job of progressing at a comfortable pace for teaching both notes and music reading concepts, and I highly recommend it, with the caveat that depending on your child, they may have similar feelings of boredom with the songs and plainness of the pages. For this Frozen book, there is only a very brief section that goes over 6 of the notes, which doesn't seem too bad, except the other book we have goes over several more. This book has about 8-9 measures each of "Mary Had a Little Lamb," "Aura Lee," "Twinkle, Twinkle Little Star," and "This Old Man" to practice these notes. There is a very minimalized explanation of fingering technique and some basic music reading-it is so stripped down I personally don't think it will be sufficient for many kiddos without assistance from a grown up. Then you get a page with fingering chart that shows the other notes on the treble clef above the finger placement chart drawing. There are 27 of these drawings. Then the simplified songs from the movie are given with coloring pages of the characters, My daughter felt like there's not enough explanations, and she said this is not a good book to try and teach yourself from. I would agree that the other book is definitely better when it comes to that. I have been stepping in and helping her a fair bit, and unless your kiddo can already read music, they may find the fingering chart to be confusing and may pick the wrong fingerings to practice for their

particular note, seeing for example, as how the fingering changes for a D that is an octave lower on the staff. This may confuse them because the manufacturer chose to mark the letter names for the notes in the notes themselves on the staff, but the letter name doesn't change just because it went up or down an octave. My daughter was pulling up the wrong finger placements on things for the parts she was trying to do without my help. I do like that the music is printed in a bigger size, that the songs progress in order of difficulty, and that the music is something she likes. But right now, I think she's actually feeling a bit less critical of the other book ;) unexciting as it is. I also like that this recorder can be pulled apart into sections for cleaning, the other one she has can't, it's all one piece, which makes it much more of a challenge to clean. I would recommend though that if you yourself don't read music and know how to play recorder, that you get them the other, less exciting book to go along with this so that they can go through that with the promise of being able to play the more exciting songs as they progress. I just feel like there's too little explanation here for many kiddos to actually get the job done well for learning these songs and that it could lead to discouragement and abandonment for all but the very motivated without supplemental assistance.

Perfect gift to drive my friend insane! His daughter has an obsession with frozen!

I know some parents can't stand this thing but we love it. ...Don't get me wrong, we have our moments but all in all, it's fun. Our daughter got it for Christmas from Santa and she loves it. She learned the basic finger positions quickly and plays some of the songs constantly. *the Frozen songs are the new songs that never end apparently... some people started singing it not knowing what it was...*She's still learning but that's part of the fun for her. When it starts to get on our nerves, we send her to her room to play it or she can take it outside. Not that hard, people.

Enough said

Wonderful easy to follow music for the beginning recorder player! My daughter does not get frustrated and enjoys playing music she knows.

YES! I've been trying to find the most annoying gifts for my sister's daughter, but holy crap....this is almost unfair! The most annoying instrument - the most annoying songs - over and over and over and over and over, piece by mother f'ing piece. Who wants to build a snowman? Not me. I'm gonna murder a snowman.
