Made In Quebec

Synopsis

Canada's culinary treasure revealed in recipes, stories and photographs. Canada has a culinary treasure in Quebec, one that is not perhaps as celebrated as it could be, at least outside of that distinct and gloriously food-obsessed region. Julian Armstrong, longtime food writer for The Gazette of Montreal, has spent her career eating, cooking, thinking and writing about Quebecois food. *Made in Quebec: A Culinary Journey* is the result of those years of delicious effort. Quebec has a cuisine firmly based on French foundations, but blended and enriched over the years by the cooking styles of a variety of immigrant groups, initially British and American, more recently Italian, Greek, Middle Eastern and Asian. More than in any other province or region in Canada, people in Quebec are passionate and knowledgeable about their food. The restaurant scene is robust, not just in Montreal and Quebec City - you can go to just about any small town in la belle province and have a splendid meal. Farmers, purveyors, chefs, casual and dedicated home cooks - all are poised in every season to produce or procure the perfect, seasonal ingredient. Not for them the out-of-season asparagus from Peru. Quebec is where you can truly experience what food tasted like before the industrial food complex. Here unpasteurized milk and cheese is commonplace; indeed there is a herd of cattle descended from cows brought from France by Samuel de Champlain producing milk just for this purpose. Imagine that in the rest of Canada! Of course, Quebec is big news in the global foodie world these days, with Martin Picard (*Au Pied de Cochon*), David McMillan and Fred Morin (*The Art of Living According to Joe Beef*), and Chuck Hughes (*Garde Manger* and *Chuck's Day Off*) showing off the joys of dining in this great province. But there is much more still to discover about Quebec, from restaurateurs certainly, but also from farmers, foragers, artisanal cheese and bread makers, home cooks, and so many more. These people, their stories and recipes, comprise *Made in Quebec*. It is high time for a comprehensive celebration of Quebecois cuisine.

Julian Armstrong is a writer whose specialty is Quebec: Quebec chefs, Quebec food and drink producers, and the latest developments on the Quebec culinary scene. She is the author of *Taste of Quebec* (Macmillan 1990, updated by John Wiley 2001). Julian writes a weekly column in *The Montreal Gazette*, and contributes to the production of a weekly summer-fall column called *In Season* that is based on Quebec products. She is extraordinarily well connected to the food world of Quebec.

In my mind this is the ideal cookbook presenting recipes home cooks can make in their own conditions focused on the diverse regional cuisines of Quebec. Also a beautiful book, photography is top notch. Compared to *Montreal Cooks: A Tasting Menu from the City's Leading Chefs* - which I also found to be a beautiful but not entirely practical book in terms of a cookbook. If I was looking for a cookbook on unique flavors of Quebec this book would be my choice. If I was looking for an overview of some of Montreal's incredible cooking talent I'd get *Montreal Cooks* - just don't expect to be making many of the recipes in that book unless you live in a very large city with access to ingredients.

My maternal grandmother was from Quebec, and I was looking for a cookbook that contains favorite recipes from that region specifically. This is a beautiful cookbook, well illustrated and containing many excellent and favorite recipes!

Not Quebecois food by any means... Asian fusion? Really? Very disappointed as I expected something more authentic...no cipate or green ketchup? No pate au saumon?

I love everything Quebec. This is awesome!

Excellent! Fabulous recipes, stunning photographs. I loved it!!!

Julian Armstrong has written about food for the *Montreal Gazette* for more than five decades. As

soon as I heard about this book, I knew it was the one for me; I studied abroad for two summers in a French immersion program at Université Laval in Quebec City and majored in French with an emphasis on Quebec Studies, so La Belle Province has a huge place in my heart. Quebec is a huge land area with great diversity in its landscape and people; some regions are famous for certain products (the nickname "bleuets," blueberries, is given to people from the Lac-St-Jean area as they grow large amounts of the fruit). Quebec also produces many excellent raw milk cheeses (which are under strict control in other provinces) and maple syrup. Its culinary heritage is strongly influenced by hearty French cuisine preferred by trappers and fur traders. "Made in Quebec" is the author's second cookbook focusing on the cuisine of Quebec; here she spent several years interviewing cheese makers, mushroom foragers, chefs and farmers, salt cod fishermen, fruit scientists and growers. The book is divided by season and include both staples (poutine, tourtière, tarte au sucre, pâte chinois) and modern interpretations of traditional flavours. I loved the simple, delicious vegetarian options like the gorgeous Tarte aux tomates confites au sirop d'érable et cru du clocher (Tomato Tarts with Maple Syrup) on the cover; in addition to many lamb and pork dishes, there are many fish- and veggie-based dishes to enjoy. The desserts in particular are spectacular.

The cover on this book looked stunning and the title suggested authentic Canadian. The recipes inside not traditional rather recipes by the farmer of the produce they grow. The photographs are of the produce mainly. Would have liked more photographs of scenery / landscapes where the produce is from. If you are Canadian born you might like this book. If you are looking for a souvenir book having visited the Quebec province then not so.
