The Marijuana Grow Bible: Join Into 30 Years Of Real Growing Experience

Synopsis

In The Marijuana Grow Bible you will learn the basics about growing marijuana for less than a dollar. Both indoors and outdoors, from seed to harvest and everything else around growing marijuana. Itââ ¬â,¢s not very difficult to grow huge buds, you just have to know how. Even when you grow legally there are still some risks involved. Maybe thieves steal your marijuana plants because theyââ ¬â,¢re worth a lot of money. Maybe your crop gets threatened by pests or diseases that can ruin your entire harvest. Or maybe there are other environmental factors that can be a bad influence on your marijuana plants.

Customer Reviews

The book actually started out pretty good and very easy to read. A lot of the information seems to be a little outdated but this book serves as a great overview for those who don't know what they're doing at all. If you are a grower with even a few years of experience this book won't do anything for you. My words of caution for anybody reading this book is to completely disregard the last two chapters about drying and curing. There's so much information out there that completely discredits

almost everything said in those chapters.

I really enjoyed reading this book. Lot's of good information. Up to date, and easy to understand. I'd recommend it to anyone.

Its ok, I thought I was getting the whole book, but just a bit actually posted to my Kindle, just the basics ma'am.

Recommend

A good read

Very informative. Easy and excellent read.

It is for the novice, in my opinion, but all the info is right on and vital to having success with your garden. It is a must read for those new to gardening the sacred one. It's a good reinforcing read for the rest of us.

Pretty short and basic. There are a few good points but mostly common sense stuff. Basically if you can grow a house plant you can don't need this book. It did however open my eyes to certain products on the internet. Just visit the guys website and he will give you a free copy if you sign up for his emails.
