Customer Reviews

Meltdown is the third book in the Mech Wars series. If you are looking for a well written SciFi Military

book series, this is a good one to read. You can read this as a standalone book but it does start from and end in a cliffhanger. There is a lot of violence. The book blurb adequately describes the storyline so I'm not going to repeat all of that info here. The author has done a good job of keeping elements of his Ixan Prophecy future universe that was full of aliens, old tech and new tech, people in power who will do anything too continue to remain in power. Yet combined that with new enemies, or maybe allies, as well as new problems to deal with. As usual, everything and everyone are not as they seem. Overall I enjoyed reading this book and want to read more. I received a copy of this book from the author and chose to leave a review for other readers.

Bartlett's 3rd installment of the Mech Wars Series is just as good as books 1 and 2. He seamlessly picks up Meltdown where Dynamo left off. Our divided protagonists fight their most bloody and deadly fights yet. Those defending Darkstream though are becoming more and more disillusioned. At what length will Darkstream go to win this war? What do they do to their warriors to complete their mission? Is it worth the human lives? Meltdown rushes headlong into the next explosive cliffhanger. Bring on book 4!

This book is a thrill a minute!! Lots of aliens, battles, mechanized soldiers, betrayals, greed and lies that are showing more of what is really happening. Key elements are beginning to appear so pay close attention if you don't want to miss something crucial. Can't wait to see what happens next. Great read! I received an advanced reader copy free and have voluntarily chosen to leave an honest review.

Jake is now an alien mech driver the quatro and humans are coming together and rebelling against Darkstream the data dump DuGalle had given ASH has opened up major distrust toward Darkstream and the Meddlers have started to get involved its definitely coming to a head who's going to come out on top A Great 3rd installment of Mech Wars Well done Scott Bartlett

This is book 3 in Scott Bartlett's Mech wars series and can be read as a stand alone novel, but you will get much more from it if you have read the previous novels. If you haven't read books 1 and 2 then get them now with this one a have a read fest. You will not be disappointed. This book like the others starts of at full pace and keeps on going. Can Darkstream keep control of the situation , just who is on the right side and who is on the Dark side ? Can Scott Bartlett keep up the tempo in the next book? I believe he can.

I thoroughly enjoyed Meltdown. The action, The plot twists. The character development and the themes of retribution versus understanding. Outstanding! I cannot wait for book four. I hope Bartlett continues to build in this universe he has created. You will not be disappointed.
