Kitty Cat (Age Of Night Book 1)

Synopsis

Aisling has every reason in the world to like her life as it is: away from the shifter community. Tucked in her little corner of the world, she sees no reason to get involved in the drama of the ever warring packs, until trouble knocks at her door. Trouble wrapped in a delicious package her cat wants to claw. Raygan didn't know what he expected when he moved his pride to the loner's territory; maybe having to deal with a criminal, or someone in hiding. Instead, he found a fiercely protective, insanely attractive lunatic with secrets he wants to unravel. A lunatic who might very well be his fated mate.

Customer Reviews

This is the first book I have read by May Sage but it will not be the last. The hero is an Alpha Feline named Rygan who has a small pride that is a real mixture he has cats, a witch and a seer and well as various children he has adopted including a little girl who was left on his doorstep as a new born. The pride keeps being attacked by wolves with no reason that they know. They have moved several times but the wolves keep finding them. The seer Hsu sees a vision of an attack that kills all the children and non-fighters. In trying to find a way out Daunte has a fleeting thought that Hsu says will

work. Daunte is reluctant but takes them to Aisling who doesn't welcome them but tells them they can stay a little while. Her house makes Rygan uneasy because her windows are open and her house is a cat rescue home. It turns out that Rygan and Aisling are true mates but there are many bumps in the road. I will be buying the next in the series after my retirement comes in. You will love Aisling's cat when she shifts.

This was one of those right and fast reads. I loved the premises of the story. It is mostly about cat shifters and a little bit of wolves and witches in the mix. The writing was good and fast paced. I loved Rygan and Aisling. The secondary characters of Daunte, Coveney, Jas, Tracy, Ola, Hsu and the kids was amazing and cute at the same time. I have to agree with another reviewer that this was a bit short to be a full length novel. I honestly don't care about short stories or bonus contents because if I buy a book it's for the main story.

First book I have read by this author. First in series. This is a somewhat different take on shifters. Same as they have alphas, submissives, dominant wolves and so on. Different as some of the shifters couldn't tell what species a child was and a few other differences. Ace is a dominant shifter from a shifter known as "The Butcher" who it turned out actually mated with another species (can't say as it will spoil story) Rye alpha of a small pack takes in any type of shifter that needs help.

Absolutely loved Kitty Cat! Ace and Rye are fierce, but lovable warriors who fight for those that need their protection. I have read May Sage books before and been impressed, so it was no hardship to pick up this one. The mystique throughout the book about Daunte and Ace, the complexities of the shifter hierarchy, the magic and shifters, all come together to give us a well written quick read. Definitely deserves the five stars!

This book has it all drama, fighting, loyal friends and cute felines. This book is about a fierce saber tooth tiger who is in protection mode and a hot sexy woman who is in lioness mode, who is invaded by an entire pride one of which who is her mate. This book has a slight happy ending but you know it's only a matter of time, can't wait to see what the little one and the seer get into as they mature.

This was an interesting story. Aisling was a loner and Rayden was an Alpha of mostly felines. They got attacked by wolves so they moved to where Aisling lives. Her brother was in their pride and he told them not to say or do anything. They didn't know they were brother and sister. Later in the book

it was revealed that Aisling and Reyden were fated mates. They called some allies to help

Wow!!! I fricking loved this book. The story itself was really interesting and kept me drawn into what was happening. The characters were unique and I loved the mating dance between Rye and Ace. A really good book....and highly recommended. I am looking forward to reading the next in the series. Kudos to the author, May Sage....I love her books.

I love love love Kitty Cat. May Sage has such a great way of drawing you into all of her books, but Kitty Cat makes shifters seem like real people too. Can't wait for the next in the series. My review represents my opinion completely and honestly. I have not been coerced or influenced in any way, however, I did receive this title for free.
