Outrageous Japanese: Slang, Curses & Epithets

Synopsis

Fun and instructive, this book is perfect for those looking to taste the flavor of informal Japanese, and those who want to shock or surprise a Japanese friend or enemy with a pithy phrase.

Customer Reviews

Since 1941 Jack Seward has been involved with the Japanese language as student, teacher, and author of more than thirty books. He has also been a lecturer on Japanese culture and communication as well as a professional interpreter and translator. In 1986 the emperor of Japan awarded Seward the Order of the Sacred Treasure, Third Class, for his efforts to deepen understanding between Japan and America. Seward, a resident of Japan for twenty-five years, now lives in his native Texas with his Japanese wife.

not sure if still usable in modern Japan as the content is somewhat outdated. You may piss off a lot of japanese people, but you need to understand Japanese culture changes as fast as they sell Nendoroids/PVC figures/Manga/Anime/Jpop idols/Robotech. So this book is. . . .4 the lulz.

Good enough for Bill Murray, it should be good enough for you too.

Been playing around with the notion of learning Japanese. I figured if I was going to learn the "high" Japanese, may as well learn the colloquial. This is another of those books where I may not use it

very often, but it will be good to know. If nothing else, it will make you chuckle.

I thought that this would be a funny book to just read on about but really I haven't used it once. And I find that some of it isn't really correct (if that makes any sense). Overall I'd just save your money and not bother with it.

Great product! Fast shipper. overall very happy! Great product! Fast shipper. overall very happy!
Great product! Fast shipper. overall very happy!

ok, so let's face it, most japanese sensei are sweet and innocent. meaning: they won't teach you these types of words. great for the first few years of japanese learning, but after a while, the art of swearing is necessary! i am REALLY glad i had this book with me when i was a student studying in japan. really was useful to scare the drunks off of me on the osaka subway system. my advice: before going to japan study lots and lots of japanese. and have this book with you to complement your hard studies!

Some books just have it! This short paperback, purchased out of desperation for my 11 yr old son, gave us both hours of much-needed laughter! Struggling with school-required Japanese, he felt hopeless & resented every minute of required study. Reading this book as a reward for completing a frustrating study session helped him look forward to getting the work done! The book is seriously organized by the most absurd topics, e.g., chapters re: insults and expressions involving body parts. The pronunciation guide is extremely clear- anyone could spout out the epithets without knowing a word of Japanese! The zaniness of some remarks left us hysterically laughing out loud! Enjoy! Now if they'd only write these for other languages...
