## Customer Reviews

Enjoyed the read, it was much like Meditation within Eternity in that it was a logical progression and continuation of that book. From a readers point of view I found it compelling and think it was worth the read for anyone wanting to expand their mind's horizons. And like his other book it was not laborious at all to read, short and sweet and pleasantly concise. I am both a Christian and a martial artist and I very much appreciate Mr. Pepin's view point as he explains it in both of his books I've read. In no way did I feel like he slighted my own beliefs but rather I saw common ground.

Even though I am still in the middle of the book and have not finished it yet, I have learned so much and have gotten so much information that is very useful~ It's opened my eyes to new ways of thinking. The way you think is so important, because it shapes your life. Please read this book if you want your life to improve, it all starts with you!

I really enjoyed "Meditation Within Eternity: The Modern Mystics Guide", as it was very helpful for me in establishing a meditation practice and routine. I thought this book would be equally as enjoyable. Unfortunately, with Igniting the Sixth Sense, it just seems like Mr Pepin's ego has taken over his thought process in this book. It just wasn't for me.

If you're looking for a book to make your mind twitch, then this is it. Powerhouse of info that took me awhile to mentally digest. This book covers energy grids and the matrix of how everything is connected spiritually. It's a concept that I never knew of and never expected to find in this book. If you are looking for information on how to strengthen yourself spiritually then this book contains a wealth of information.

One must balance of course between inner and outer, giving and receiving, self-protection and openness and what I like about this book is the reason why Pepin says meditation is so

important: We must withdraw our attachments to all the pulls and demands from others for just a bit some of which can be too vampirical or demanding and not in our best interests- or anyone's. It is good to have reinforced that our meditations are more vital to our health than we suspect. However I think it gets maybe a little too dark and paranoid: Very much feeling his power, Pepin talks about throwing someone's bad energy back at them- like a powerful little ball back in their faces. I disagree. I think we go in with loving energy first and then ask questions later.

I began on the spiritual path 7 years ago. There have been good days and bad days along the way. Eric describes all the things the Universe has taught me. He describes in this book how reading the spiritual journals of 100 years ago, validated the thoughts and feelings that he had come to know and trust. I have been lucky enough to run across this book at just the right time in my evolution. Reading this book has taught me that no matter what society says, I am on the right path and capable of so much more than I was ever taught to believe. Thank you, Eric Pepin, this book is a gift to humanity. Charles Haanel wrote the book, "The Master Key System" in 1919 and it was my first book on this path and now Eric Pepin has given me the book that can put all I have learned together.

I am on my second read as I want to internalize every detail taught. Mr. Pepin, THANK YOU for sharing your knowledge in a way that can be put into effect immediately. THANK YOU for the raw and honest places where you show your human nature and for then quickly taking us back to the methods. It is not often a spiritual teacher says something as honest and relateable as "sometimes I think "I'll just zap you"..." lol. An excellent job of showing us that you feel the same emotions we do, you just have profound techniques for then tempering your emotions with love and a higher knowledge. A TRUE SPIRITUAL POWERHOUSE DESTINED TO BECOME THE STANDARD FOR A CLASSIC ENERGY EDUCATOR! I LOVE THIS GUY.

Eric Pepin does have some pretty amazing information about meditation and metaphysical concepts but his delivery and structure in this book is very disjointed and random makes for a very mediocre reading experience.
