Wonderfully written. Insider guide to self and those in your life. Found more than I thought about how to manage and understand a better outcome using tools given.

Downloaded this version hoping the eclipse tables had been updated to post 2000 births. Nope. Leaped before I looked and now feeling ripped off. Not much changed from 1988 edition. Liked the content then. Didn't need to buy the Kindle version. :(Updated 08/04/13: Now that it's on my Kindle account I can re-read from my phone. So, happier now. Did I say how dogeared the paper back is? Yeah. Well-used book. Still hoping for updated eclipse tables.

For those who are beginning into the realm of Astrology, a must read for those seeking enlightening thru Astrological paths.

This book has been immensely helpful to me in re-introducing a spiritual practice into my life. Beautifully divined and cohesively communicated astrological delineations of the planets and prenatal eclipses help me to engage, connect, accept, and consciously cultivate critical aspects of my soul and destiny. No joke, this is one of the best Spiritual astrology books out there.

Great book, very enlightening

I bought this for a friend, because it's a book to live by. I only use the back, on Lunar and Solar eclipses which tell you what you are here in this life to learn and teach, respectively. I've used the book since 1997, and have yet to find one person not blown away by the accuracy.

Fairly good read

interesting book
