Whatever The Cost: Facing Your Fears, Dying To Your Dreams, And Living Powerfully

Synopsis

Are You Ready to Live With a Full-Throttle Faith? This trade paper edition follows the story of entrepreneurial twin brothers, David and Jason Benham, from their formative years in professional baseball to their rise as owners of a multi-million dollar business empire to securing an HGTV reality series. It's a journey where the brothers learned how they must die to their dreams not just once, but twice—as they walked away from professional baseball careers and later as their television series was stripped away from them. These experiences helped them realize that the key to powerful living is found when we die to our dreams and face our fears, and choose to live powerfully through it all. The biblical principles they implemented to guide their lives are what give us the courage to stand for what is right. The book will expand on principles such as: Be a Fountain to Others and not a Drain Produce More in Value than You Receive Work to Your Ability and not Your Pay Breathe Life into All Situations Hold to a Standard of Disciplined Living Find Your Greatest Blessings on the Other Side of Your Greatest Fears

After retiring from professional baseball in 2002, David and Jason Benham, twin brothers and acclaimed entrepreneurs, began building their business empire, growing it to more than 10 companies spanning 35 states and around the globe. Their first venture, the Benham Real Estate Group, exploded to 100 locations and was named by Inc. as one of the fastest growing private companies in America. The brothers are happily married to Lori and Tori, with a combined 9 children, and live on the same street in Charlotte. Scott Lamb serves as the President of Reformation Press and the Executive Director of the Presbyterian Lay Committee in Nashville, Tennessee. He is a Baptist pastor who has shepherded churches in Alabama, Missouri, and Kentucky. He and his wife, Pearl, have six children. He is the author of *Pujols: More than the Game* (Thomas Nelson, 2011).

I recently heard the Benham brothers speak on a prayer call, and I was so impressed, I ordered and read their book even though I have about 500 books on my Kindle waiting to be read. These twin brothers have been very successful financially and professionally, though they have both gone through tough times along the way. What made them so interesting, however, was their strong stand for their faith. They had a reality show in production until the network told them it was okay to be Christian, but they couldn't talk about things like their opposition to same-sex marriage. The brothers refused to deny their faith and consequently lost the show. The book tells their personal stories and calls on the church to make a stand for Christ.

Great book with wonderful insight. Tremendous opportunity to see the behind the scenes real-life business practices & beliefs of men who believe that God actually means what He says & promises in His Word. Inspirational, educational, entertaining, full of wisdom and at times hilarious. Highly successful business owners with multiple businesses currently in operation, these guys are the real deal! Order a copy for yourself & another for anyone you know that needs to see what a successful business relationship with God looks like. Highly recommended! 10 out of 10!

I had the pleasure of hearing the Benham brothers speak in person at Charleston Southern University and they inspired me so much, I had to get their book to hear more. This book is full of awesome tools, truths, and transparency. I pray these men continue to be models in the community and the men God has called them to be. They have totally inspired me to find and take my place in

the community as a representation of God and the power He has in the life of every believer who yields themselves.

Bless these two young men. This book tells their life story, sharing their struggles, their faith and what God has called them to do. Ordinary people just like you and me. Reading this book encouraged me to make my faith even stronger in what God calls me to do in my life. I wish it were a little more affordable, I have so many friends I'd love to buy and share this with. However, each page I read was worth the price.

I loved this book and its principles weaved throughout the story of real people fighting Goliath in the 21st century. It was so refreshing to read that I am not alone in the fight against Satan's snares.

I loved the personal narrative from the Benham brothers. The way they related what they experienced to what God called them to be was relevant to our times and gave a clear perspective on how Christ wants to use all of us, in the market place of our world as Christians. It was interesting too, to hear the truth of what happened to them on the HGTV show. I would recommend this to high school students who are trying to find what their life should be about, to college students preparing for life, and to Christians who are struggling with what God requires of them in the church and in the market place.

Incredibly motivational book. Their life story is incredible, yet the testimony of their commitment to Jesus is inspiring. The book made me see that God has called us to greater things if we will let go. In my opinion The Benhams provide an insight to what it means to be set apart no matter the cost.

I had mixed feelings about this book. I was inspired by the character of these men, but I was also jealous about how much was invested in them from childhood. It also made me question how I was spending my time and my life, which is a good thing. I'll keep their story in mind and hopefully raise children who will stand for Jesus whatever the cost.
