Cadicle Omnibus (Volumes 1 - 3): An Epic Space Opera Series

Synopsis

"Enjoyable, galaxy-spanning epic series." - Publisher's Weekly

THREE-BOOK BUNDLE

character-driven space opera with adventure, intrigue, romance, and telekinesis for fans of *Dune*, *Ender's Game*, and *Star Wars*! The galaxy-spanning Taran empire is on the brink of an interdimensional war... When Cris Sietinen leaves Tararia as a teenager to learn more about his prohibited telekinetic abilities, he thinks he's started a new life. Years later, he learns that freedom was always an illusion--he and his family are at the center of an elaborate galactic conspiracy orchestrated by the governing Priesthood. Genetic engineering, political manipulation, and preordained destinies converge when Cris and his son Wil learn of a secret interdimensional war against the mysterious Bakzen. But the real enemy may be far closer to home. With knowledge of the Priesthood's hidden agenda and its disastrous political ramifications for the Taran empire, Cris and Wil embark on a mission to save their civilization from certain destruction. This is the omnibus of the first three volumes in the Cadicle space opera series, a multi-generational epic spanning sixty years. All seven volumes of the complete series are now available.

VOLUME 1: ARCHITECTS OF DESTINY (smarturl.it/cadicle1) Cris Sietinen was born with rare telekinetic gifts--abilities outlawed by the governing Priesthood. But, a new future awaits when Cris unexpectedly receives an invitation to join the Tararian Selective Service (TSS) and begin their sanctioned telekinesis training program. Except, following that path puts him at the center of a generations-old galactic conspiracy. *Architects of Destiny* is the first installment in the Cadicle series. This short prequel novel is a prelude to the defining events in Tararia's history in the ensuing years.

VOLUME 2: VEIL OF REALITY (smarturl.it/cadicle2) The greatest deceptions are never suspected. After twenty years with the TSS, Cris Sietinen is in the unprecedented position of being both Lead Agent and heir to a High Dynasty. When his son is captured by the mysterious alien Bakzen, Cris uncovers a hidden truth that forces him to question all that he once took for granted. *Veil of Reality* is the second installment in the Cadicle series. This novel begins to untie the knot of secrets binding the TSS, High Dynasties and the Priesthood.

VOLUME 3: BONDS OF RESOLVE (smarturl.it/cadicle3) A year after his encounter with the Bakzen, Wil is still grappling with his upcoming role in the war. Weighed down by his sense of duty and a grim vision of his fate, he has withdrawn from friends and family--focusing only on his official assignments. However, Wil finds unexpected support when he befriends a new TSS trainee from Earth, Saera. Through their budding relationship, Wil comes to terms with the purpose he was born to fulfill and gains comfort in the knowledge that he won't have to face the future alone. *Bonds of Resolve* is the third installment in the Cadicle series. This novel follows Wil as he completes his training to become the

youngest and most powerful Agent the TSS has ever known.*****Additional books to complete the Cadicle series:Volume 4: Web of Truth - Buy it now: smarturl.it/cadicle4Volume 5: Crossroads of Fate - Buy it now: smarturl.it/cadicle5Volume 6: Path of Justice - Buy it now: smarturl.it/cadicle6Volume 7: Scions of Change - Buy it now: smarturl.it/cadicle7

Customer Reviews

I just finished reading the Cadicle Omnibus (Volumes 1-3) and I am breathless. It has been quite the ride. The story is great and fascinating. It was a roller coaster ride. Read this book. You won't regret it.

Excellence, in my humble opinion, comes from talent and hard core work and practice. I believe Amy DuBoff has both.Excellent character design and growth, with great depth in the intertwined lives makes this a great read! A exceptional mix of sci-fi, politics, personal lives, and intrigue.Just try

it, I'm comfortable you won't be disappointed.

Interesting and complex plotting is what you get in this selection. Goes beyond simple space opera. Was a pleasure to read.

I am sometimes hesitant about buying a series of books when I don't know the author. Cadicle has proved to be a diamond in the rough. I am writing this review after I have finished all 7 books in the series. Each book just keeps getting better and better. Great story line, good character development, good guys, bad guys, some good guys that you maybe don't like, drama, and good theater.

This series had my interest from the very beginning. It is well written, and involved. It goes through quite a few years, and all the subterfuge of this time line. I could barely stand to put these books down. This is one of the best stories that I have read. The characters are believable and feel quite real.

This is a great series! I love how the author has created such a unique universe, and continues to surprise me with each book. Very well written, and great dialog. The characters draw you in, and make you feel like you're part of the story! I highly recommend this series!

not bad. I read first couple of books some time ago.. interesting premise .. time seems to move quickly through the books. characters grow up and change.. still not quite tuned in to what the whole 'cadicle' thing means.

Quite an enjoy series, The closest thing to it would be Ender's game. I lost sleep staying up to finish the last book.
