Useful expressions for real conversation

I have been learning French using an on-line tutor for three months, having taken French years ago in high school. I bought this book before taking a one-month vacation in France, and it was just what I needed. I memorized dialogues, which became the jumping off point for being able to engage in very simple conversations. There is an on-line help which allows you to train your ear and pronunciation. You have to already know something about French (I am at the most elementary level), but it gives life to what you are studying.
