Customer Reviews

When I got this book, several years ago I believe, I was obsessed with all things Twilight. I'm now older and while I might not be a hardcore Twilight fan anymore, I still love the series and everything it represents. It's about a seemingly normal girl who, against all odds, finds the love of her life, a love that comes once, maybe twice in your life if you're lucky. I love all the facts I learned about in this book. Some of the facts I knew before, but many of them I hadn't. My favorite part of this book though is the pictures. Although I'm not obsessed with the saga anymore, I still smile and giggle when I see all the pictures from the first movie. It reminds me of my teenage years and all the wonderful memories I have watching this movie with my family and reading the books. I will always love the saga and I'm so happy I have this book for the memories. A great addition to any Twilight fan's collection. I highly recommend!

This was shipped and delivered in perfect condition and time.Love the book - shows behind the set photos and cast interviews. The perfect gift for your favorite Twilight fan or (like me) the perfect gift for yourself.

This book is great I read it from cover to cover very interesting telling you all the details on making the movie and what went into making the movie and also places where different scenes were filmed(eg Oregon etc) and how they came about the places. Explains how they designed the sets and found places and what they had to do with the sets to make it realistic yet "Twilightful" I also really enjoyed the part how they explain the shooting of the movie as they wanted it to be real not digitally enhanced also the stunts that were done by either the actors or stuntmen especially the scene in the trees with Edward & Bella. All over a really interesting and good read also hasd beautiful pictures from the movie and pictures while making of the movie, Catherine Hardwicke a genius

Hello Guys,As usual, Mark Cotta Vaz has assembled a brilliant book about the Twilight movie.As it is about the first movie, normally I should have got it first, but I got the "New Moon - official Companion by Mark Cotta Vaz" before this book because I couldn't find it in any Indian retail bookstore. Thanks to , I finally got my hands on this one.It is really good companion book, it takes

you to the behind the scene, let you know about the thoughts of our favourite stars & director, costume designer & everyone who made this lovely movie. It lets you know the hard work these people put behind so that we can really enter the world Stephanie Meyer created. My personal vote - "Best book about the movie Twilight".
