Synopsis

For the first time ever, a famous spiritual astrologer shares the secrets, previously known only to professionals, that hold the key to your future. Astrologer Jan Spiller shows you the key to discovering your hidden talents, your deepest desires, and the ways you can avoid negative influences that may distract you from achieving your true life purpose, as revealed in your chart by the position of the North Node of the Moon. With insight and depth impossible to gain from the commonly known sun-sign profiles, the enlightening self-portrait offered by the Nodes of the Moon can explain the life lessons you came here to learn and how to achieve the fulfillment and peace you desire. Jan Spiller shows you how to locate the all-important North Node of the Moon in your astrological chart and provides a detailed interpretation of its influence and exclusive exercises to help you learn about:

This is incredibly thorough and accurate. If you're ready to find a level of direction based around the North Nodes (something I would never have thought to factor in had a friend not suggested this book), use this book. The advice is solid, the zodiac interpretations are spot on, and there's a gentle nature to the delivery that makes the negatives easier to swallow, and the positives a brilliant spotlight into building an effective life.

I learned so much about myself reading Jan's book. It was enlightening. I've recommended to many friends and I recommend it to anyone seeking to go deeper into astrology.

I find her analysis interesting but rather tedious! In reading the one that pertains to my astrological positioning, it felt so negative at first as I read it in small segments. I was inclined to feel like something of a reject! LOL But seriously, this author goes deep and at the same time, she seems to have to make a big distinction between the spiritual and the material as being two completely separate paths in life. I have actually come to the conclusion, after having looked at it her way, that it's important to integrate the two together, rather than looking at the material as a culprit along the spiritual path.

Great Book! I highly recommend to people who are looking for an direction on things to learn and things to leave behind during their life. My North Node summary was spot on as well as my Mom's.

Spot on. As if my north node was written for me.

A friend recommended this book to kind of introduce me to astrology. All I can say is WOW. It is so dead on accurate it is scary. It's like she climbed into my mind and wrote down my personality, and how I react to situations and what I need ect... It is very interesting to read about yourself, but also read about others. For a couple of people in my life, the accuracy of their personalities was so accurate and eye opening it was alarming for them. One person who has a lot of negative things in her life and never gets what she wants read her section and really didn't want to hear it. Because the areas she needed to work on were TRUE and she didn't really want to admit it, or hear it. I would recommend this book for anyone who is OPEN to hearing these things and understands that maybe some of it might not be accurate, but for the most part (in my experience) it was creepy how much of it IS. It really does give insight to not only yourself, but others as well.

Good addition to my books

reading this book has given me one of those experiences that I'm being described with an accuracy to the point like by no other astrologist. As a matter of fact this is the only astrological book I've read and returned to, but this book has given me a perspective that those astrologists making a map out of your date and site of birth haven't been able to, a perspective that explains many of the features I've been struggling with. It is deliberating and releasing to read this book because it describes your dysfunctionality from a different angle than any others, at the same time with warmth empathy and understanding. You also get some ideas how to work on your stuff.
