David McArthur's passion for understanding human transformation has taken him on this powerful path into the discovery of the spiritual heart. Experiences of tragic loss, healing, forgiveness and his service as an attorney led him to spiritual study and then to thirty-five years of ministry. He has led individuals and groups in the experience of personal transformation for more than forty years. Seeking the scientific principles of transformation drew him to seven years of service at the HeartMath® Institute. There he discovered that personal transformation is possible within a moment through the spiritual heart. Twenty years after he co-authored *The IntelligentHeart* with its revelation of heart intelligence, he shares with us the source of that wisdom. He has proven this source and its power in his own life and witnessed its transformation in the many thousands of people he has trained. From a lifetime of seeking comes a scientifically-tested, spiritually-powered guide to accessing your deepest wisdom and living a heart-centered life. More at accessingwisdom.com.

Heart, David clarifies that, to him, the "SPIRITUAL" is outside otherwise empirical physical, emotional, cognitive. More specifically, David references experimental evidence which appears to potentially point outside TIME AND SPACE. A mystery revealed? David was the first of many father figures to enter my life back in my early twenties when I needed help filling many gaps I experienced growing up. From the balance of daily life to the mysteries of the cosmos, together we explored it all. As do musical instruments, our physical hearts emit vibrational waves. Vibrations encountering vibrations exhibit patterns of harmony/coherence, dissonance/incoherence. Our minds respond directly to pattern variances. To engage our 'spiritual heart' is to learn to perceive these patterns. When I touch my heart and breathe, remembering the communication which flowed so freely with my old friend and teacher, questions become answers. Attuning my perception to the confluence of vibrations allows information to flow. The greatest teaching David instilled in me long ago (and which I carry with me to this day) is the practice of listening to the listener. Only in centered awareness of my own heartbeat can I attune my thoughts to what I perceive as commingling vibrations of my environment. In David's reimagining of the core practice of The HeartMath Institute, so simplified is the gap between heart and mind, you feel it coming together. Through the simple practice of David's "Heart Wisdom Tool" we can sense that perhaps spirit and science have been integral from the start. Much recommended, my friend.

I very much enjoyed reading David McArthur's book, "Your Spiritual Heart", and learned a lot in the process. David takes a simple, logical, and direct approach, with his 3 step method, to helping us access our wisdom, and using it to answer the myriad of complex and frustrating issues we face in our daily lives. He lays out the process with clarity, emphasizing how and why the methodology works. This gives us peace and clarity in our own lives. Nice to know that this compelling book, written from David's spiritual heart, can teach us to eliminate the struggles of our lives, with heart rendering happy and good consequences. Thank you David!
