## Customer Reviews

J.D. Lenzen is the creator of the highly acclaimed YouTube channel "Tying It All Together" and the producer of over 300 instructional videos. He's been formally recognized by the International Guild of Knot Tyers (IGKT) for his contributions to knotting, and is the originator of fusion knotting--the creation of innovative knots and ties through the merging of different knot elements or knotting techniques. He lives and works in San Francisco, California.

TAIT on YouTube presents easily understood directions to create interesting items out of paracord.

The second book is as good as the first. I carry lengths of paracord on my keychain, have a quick-deploy bracelet, and other items. If you want to fool around with making paracord bracelets, fobs, etc., this man is the master of clarity and inventiveness. Recommended.

J.D manages to inspire me. With severely damaged hands and agony, J.D has given me then inspiration to motivate myself into paracord knots ties and other intricate designs. Sure it hurts like hell, yet the irony is I can never wait until his next book to see what wonders he has in store for me next. One very happy Aussie Veteran.

I like the emphasis put on paracord items that are less bulky and cumbersome than the traditional survival fare. The inclusion of knot fasteners instead of clips adds to artistic presentation. Thanks from someone who hopes to survive without untying my bracelet! - Wyoming fan

Excellent!!! Well put together in an easy to read and understand format with exceptional photo's of every move. I watched many of the YouTube videos which are also excellent and easy to follow and will continue watching them but I also like the books every bit as much, just as easy to follow and no need to pause with it right in front me. I could go on but other reviews have said it better than me. At any rate, I am well pleased with this book, well worth the cost and I am glad I bought all 3 and plan to get the other one too.

Great addition to the ever expanding paracord world. If you are a beginner or expert tier or you are just interested in a new hobby, this book is a great find. I also recommend Paracord Fusion Ties volumes 1 and 2!!

Good for beginners. Learned faster by watching "how-to" videos on YouTube.

Good book. Difficult to understand directions

the directions for the plafond knot on pages 7,8,&9 were impossible to tie from this book. I found the them in the decorative fusion knots book to be correct and easy to follow and the knot tied very easy for me. I have tried several others and your instructions are easy to follow and tie . Keep up the good work.
