Beware -- Literally half of this book is an advertisement for other books. And these other books aren't even music books, but rather about health practices. The most bizarre book I've ever received. I will make a studious effort to never purchase anything ever again from this author, or publisher.

Was disappointed to find this was nothing more than excerpts. The title is misleading.

This is great. It sounds good and is so easy to play. This would be a great gift for people starting out

I like the variety of song choices.

Definitely easy, a nice starting to place when learning to read music. Fun, simple jumping off point to learning these classical tunes.

Super easy, perfect for a beginner!!!

Not good value. More like a thin pamphlet than a book. The gift recipient was disappointed.

Here I was thinking this may be a somewhat substantial booklet of solos, it is not. When you get it, you feel like at least half of it may be missing it is so thin and unsubstantial.
