# To Love A Reckless Lord: Conundrums Of The Misses Culpepper Collection Books 1-3

## Synopsis

Entertaining, mesmerizing laugh-out-loud, emotional Regency romances. The first three full-length installments of the Conundrums of the Misses Culpepper Series featuring devilish rogues and the capricious women who capture their hearts. What would you be willing to sacrifice for those you love?

**Brooke: Wagers Gone Awry** Brooke Culpepper resigned herself to spinsterhood when she turned down the only marriage proposal she'd likely ever receive to care for her family and farm. Heath, Earl of Ravensdale is none-too-pleased to discover five young women call the estate he won and intends to sell, their home. Desperate, pauper poor, and with nowhere to go, Brooke proposes a wager. His stakes? The farm. Hers? Her virtue.

**Blythe: Schemes Gone Amiss** Intrepid and outspoken, Blythe Culpepper is dragged against her will to London for a Season. To her dismay, her guardian enlists the devilishly attractive Lord Leventhorpe, the one man she detests, to assist with her Come Out. Haunted by childhood trauma, Tristan, the austere Marquis of Leventhorpe, usually avoids social gatherings. So why, against his better judgment, does he agree to aid his closest friend in presenting the Culpeppers to the ton?

**Brette: Intentions Gone Astray** A rogue turned rector, Alexander Hawksworth, prefers soirées to sermons and parties to prayers. After unexpectedly inheriting an earldom, he determined to make the precocious and petite, Brette Culpepper, his countess. Until he's accused of murdering the previous earl. Brette adores London Society, but her world is tilted on its axis when rumors circulate she's a peer's illegitimate granddaughter. Worse, a newly appointed guardian intends to force her into wedding an elderly lecher. Caution: This collection contains roguish heroes, each with a secret they don't want revealed, heroines with a penchant for getting themselves in scandalous scrapes, a pampered, near-sighted Welsh Corgi, and hysterical feminine mishaps and mayhem galore. Buy this historical Regency romances boxed set collection for romping, emotional adventures you won't want to put down!

## Customer Reviews

These are fun, romantic stories with down-to-earth, likable heroines and sexy heroes even though much of what happens is implausible. I read completely through all of them, which is rare for me to do with a box set. I have to say they all needed more editing and proofreading, and there seemed to be a problem with the formatting of the third book (confusing random line breaks). I wasn't sure about the historical details either--for example, in one scene we have the "soft clacking of two pairs of heels" when two women enter a quiet room during a party--didn't they wear slippers for dancing in Regency years? Lamps are mentioned several times--wouldn't it have been candles? And why was Heath's near inability to read mentioned several times at the beginning of the first book? The plot continues without Brooke ever learning about it, and it's never mentioned again in that book or the next two in the series. I would have been glad to give this collection five stars if the author had put just a little more effort into polishing the stories before publishing them.

Peeked - verb, past tense - to have peered surreptitiously. Piqued - verb, past tense - to have been angered or to have taken offense. Peaked - verb, intransitive - to be wan, pale or sickly looking. Now that I've taken care of that irritant, on to the review. The stories are amusing, entertaining and somewhat clever, and I did enjoy them. Although they contained a few anachronisms, they weren't so glaring as to throw me from the book. All in all an enjoyable read. One star off for relying on Spell Check instead of a proofreader. The above reference was the most grating.

I really enjoyed reading this set of books. The personalities of the sisters and cousins were all

distinct. I liked them all, and the heroes. The plots were interesting and well developed. It was well written. Highly recommended.

A delightful boxed set. A good value. I got to know the characters quite well as they appeared in all the books.

Well written good stories that I enjoyed reading. Loved getting them in one bundle.

Good reads

Brooke: Wagers Gone Awry by Collette Cameron  
The Misses Culpepper...sisters & cousins who live on the dairy farm that was owned by the father of the oldest Miss Culpepper & her sister. Upon the father's death the farm is inherited by a distant relative who becomes their guardian. This guardian has no use for the girls or the farm & "allows" them to live there with Brooke, the oldest, in charge & their only allowance being half of what the dairy brings in (which isn't much). Brooke Culpepper, the oldest of the Culpepper misses, loves running the household & the farm. She doesn't like the fact that females cannot inherit property & she is at the mercy of a distant relative. Thankfully, he doesn't want anything to do with the farm or the girls which allows them to live somewhat in peace. Well, except for the fact that they barely have enough money to live on. Each of the girls does something to supplement their income, sewing, music lessons, etc and their loyal servants continue to work for them without pay. Heath, the Earl of Ravensdale, a confirmed rogue wins a dairy farm in a game of cards. Not something a man about town has any real interest in so he decides he will check the property out & put it up for sale. After traveling to the farm in horrendous weather he is none too happy when he arrives & finds 5 women living there. An old dog, undeniable attraction & a series of loyal servants "trying" to help, an improper proposal & wagers going the wrong way can this couple find a happily ever after? Will the winner of the bet hold true to their end of the bargain? I received this book as an ARC in exchange for an honest review....I absolutely LOVED this book!!! Collette Cameron has the unique ability to put you in the characters shoes. She makes excellent use of first person...especially with the little "thoughts" each character has (these cracked me up!). Along with the wager between Brooke & Heath that involves Freddy, the dog, had me laughing & yelling out loud. She also sets up the next story with some of the secondary characters & it's going to be explosive. Anxiously waiting for the next story!  
Blythe: Schemes Gone Amiss  
Watch out London! The Culpepper Misses have arrived at the dismay of Blythe Culpepper. Having arrived in London with

her sister, brother-in-law & cousins Blythe is being introduced to the ton when she would much rather be in the country and away from a very annoying Marquis. The man sets off her temper like no other, if there was only a way to avoid the man but alas, he is her brother-in-law's best friend so he will always be a presence. Unless she can get through this season & retire to the country as she has no aspirations to wed. Until she meets a gentleman who could possibly change her plans. That is until she overhears a title grabbing "lady" & her mother plot to trap Tristan into marriage. Will this be the catalyst that has Blythe realizing exactly what those fireworks mean? Tristan, Marquis of Leventhorpe, has led a very controlled life. Something from his childhood haunts him still & he avoids commitment of any kind. Which is soon tested by the fiery Blythe Culpepper, sister-in-law to his best friend. Whenever they are together the room vibrates with electricity. A long time enemy threatens Blythe's safety which is the catalyst that makes Tristan realize what she means to him. As one man's stupidity, an enemy & title grabbing schemers will Blythe & Tristan realize what they mean to each other? Can Tristan let go of the past in order to be happy? Another hit by the extremely talented Collette Cameron that will have you laughing & crying all at the same time. Her wit combined with the strength of her characters will draw you in & not let you go. Looking forward to her next installment to see which Culpepper Miss has me laughing out loud. Brette: Intentions Gone Astray What could the Culpepper Misses get into now? With Collette Cameron's witty sense of humor and the Culpepper's penchant for getting into mishaps one can only imagine what troubles Brette finds. However, I wasn't prepared for the bombshell that threatens everything Brette thought she knew. I admired the strength and straight-forwardness with which Brette handles her situation; not so much the way she handles Alexander Hawksworth and their mutual feelings. But I do have to hand it to Alex, "Hawk", in his determination to prove to Brette they belong together (and the way he handled his grandmother - BRAVO!). Ms. Cameron continues to come up with delightful ways to torment her characters and grab her readers attention - keeping them glued to the story from start to finish.
