Just when I think Deana and Wona's cookbooks can't get any better they came out with Dinner's Done!, and make my life even easier than before. The recipes are easy and delicious, the photos

are lovely and now there is nutritional info for people who want to know more. This book will make a perfect holiday gift for people who love Trader Joe's, for those who are new to the store, and for anyone who loves to eat yummy food that is easy to prepare. Thank you for another great cookbook, and also for including a few of my recipes too

I love Trader Joe's, but some of these recipes are made with seasonal items and a couple of them don't look very appetizing. I'm not a picky eater at all. In fact, the only food I don't like is raw garlic by itself. So, given this and that I'm such a huge TJ fan, it's a bit surprising that I'm not going bonkers over here over all of these recipes. Worth the money anyway, because you can get most seasonal items at Safeway/Vons year round...but that kind of defeats the purpose, don't it?

Great cook book. We have sent it to family.

This was a birthday gift for my son who often shops at Trader Joe's. He made dinners from the book three days in a row! I think this is his favorite cookbook yet.

I absolutely love this cookbook. The recipes are so easy and take such little time to prepare. However, it's not like a lot of cookbooks like that where your cart is filled with a bunch of junk with preservatives. It's basically whole food, sometimes onions prechopped or precooked lentils, to save time on prep. It also has some really good tips that have improved my cooking techniques. I'm currently not eating meat and still find many recipes where they suggest substitutes or they are already vegetarian. This book is great if you love TJ's, I highly recommend it.

Trader Joe's is one of my favorite places to shop for groceries, so when I found this book that uses TJ products, I knew I had to have it. It has great pictures and easy-to-follow instructions. I love that they offer suggestions for how to make it vegetarian (or not) and other helpful little cooking tips. The recipes are also usually meals that can be made quickly- perfect for a busy Mom like myself. My favorite (and my kid's favorite) is the meatloaf. It's so simple, easy, and tasty!

best cookbook ever invented

I really love this cookbook! I am not a fancy chef and I don't like having to buy tons of fancy ingredients that I use 1/4 tsp and then have sitting on my shelf for years because I never use them

again. This cookbook is awesome because it uses everyday items and the food is delicious but not super fancy or pretentious, which I love. I've only made about 6 meals so far but each one was a big hit with me and my family and I'm really looking forward to making more.
