Grade Level: 6 - 8

Customer Reviews

McGraw-Hill authors represent the leading experts in their fields and are dedicated to improving the lives, careers, and interests of readers worldwide

Not a mark or crease on a single page. Bought this so our sixth grade granddaughter could do her Science homework here after school and not have to carry a big, heavy book home. She is able to highlight important facts which helps when studying for tests

Great help for the kids, easy to use by them

The book was in good condition.

Excelente

Was good to be able to purchase this, and not pay what the schools wanted to replace this item. Kid damaged this so had to purchase a new or like new. This was a good deal for us all around.
