The book is what it says easy solos. I was hoping to use the book to learn actual Kenny G solo's following along with the actual music. Most songs are transposed either a half-step up or half-step down, and a couple of songs who knows what they are trying to do. I expected that there would be actual transcription. In an effort to make his solos easy it made them dumb and un exciting. I would not recommend purchasing this book I would find something with actual transcriptions.

Parts are dumbed-down... not the same facility or embellishment as recording... still, and excellent start

I have been listening to Kenny G music for several years, and it is great to finally own a soprano saxophone and play easy versions of his songs. The book is very nice, and I enjoy playing each song.

Easy to use. Nice variety of songs

nice

Nice book, not much to it. You have the music and that is all you were asking for. Not for a beginner though good to learn from and practice to.

Cool book

Forced to review the book. Really ? Really?The book is good, i know how to read some notes, not a lot but i can still keep up with this book.
