Meeting The Ethical Challenges Of Leadership: Casting Light Or Shadow

Synopsis

Meeting the Ethical Challenges of Leadership: Casting Light or Shadow, Fifth Edition identifies the unique ethical demands of leadership and equips readers to meet these challenges. Written in a conversational, accessible style, author Craig E. Johnson takes an interdisciplinary approach to leadership ethics while blending research and theory with practical application. This unique text offers a realistic look at the "dark side of leadership" and metaphors of shadow and light are woven throughout the text as a creative pedagogical tool and promotes ethical decision-making and action through skill development, self-assessment, and application exercises.

Customer Reviews

"I do not know of another text that comes close to it . . . This book is one of the best on the market!"--Diane Chandler
"The best quality of this text is its emphasis on the leader--casting light or shadow. This theme/metaphor challenges the reader to take stock of him/herself with respect to the metaphor and encourages changes, if necessary, to be a 'light caster.'"--James K. Dittmar
"For my needs, leadership and ethics, this book delivers in ways that allow me to be an effective instructor on this topic."--Lee E. Meadows
"I believe Meeting the Challenges of Ethical Leadership has been a very good basis text for the ethics courses I have taught over the last ten years."--Mary Jane Kuffner-Hirt
"I already utilize the text and my students like it... It has a fairly nice balance between the complexity of the topic and readability and understandability."--Alison Antes
"The self-assessments seem particularly popular and insightful."--Frederick Brockmeier
"I use the text now in 4 classes at three colleges with excellent results. The students love this book."--Lonnie Inzer

This product does not contain "real page numbers based on the print edition" like claims. There are no page numbers listed on Android or iPad kindle applications and no way to turn page numbers on. only provides a location number that is different from the print editions page number. This makes the product useless for citations and worthless for use in a classroom setting.Update 2/5/17: Called Support and they were unable to resolve the issue. They acknowledge the product description states this book should have page numbers on the iPad and Android Kindle Apps but they cannot explain how to turn this feature on. Only the location number is visible.

I received the book *Blaming the Victim* last week on the promise date that was listed when I ordered it. Thank you. I appreciated it. M.A.

good

Using this for a doctoral-level course in the Ethics of Leadership. Excellent text; well-written, easily readable and organized in a very logical manner. Would highly recommend.

I just recently completed an Ethical Leadership class. My instructor selected this book as our textbook. I can honestly say that he could not have chosen a better book. This book really allows you to understand Ethics and Ethical Leadership. It also forced me to take an honest assessment of myself as well. When I say "honest assessment", I'm merely saying it enabled me to see if I was operating ethically in all levels of my life. I must admit there is room for improvement, which I am currently working on. Excellent book... I refuse to sell this one, I will hold on to as a reference/guide. Thank you.

I was so upset when I found pages missing out of this book. UNACCEPTABLE.

used in several of my classes in graduate school. This book is considered the gold standard. Very deep with much research backing up his work.

I bought this for a criminal justice class, but I think this is an amazing read for anyone who is interested in social studies, philosophy, psychology, or any subject for that matter. It is interesting, uses loads of real world examples, and keeps you very interested. I won't be selling this book after I am done with the class.
