Good ideas and projects.

Good instructional book.

Great projects

Love, Love this book, it is wonderful and just what I needed. Thanks

Very good book on the subject matter.

This is a great book. Have learned so much, already

Great ideas and tip techniques!

The projects in this book are TOO simple. For instance, one bracelet is a piece of flat leather with gemstone chips on headpins hanging from it. No punched holes, the headpins are looped around the the leather. Another bracelet is several pieces of round leather strung with seed beads and knotted to a clasp. Speaking of knots, very few are used here, most projects use square knots or braiding. Most projects I would not wear and have no desire to make. The few that were interesting had their look ruined by very visible long leather crimps. In one necklace the crimps are on either side of the focal. The instructions seem to be clear and the photography well done but the content lacks skill building projects. The last project in the book consists of a necklace of braided leather with a bit of square-knotted leather in the front. The second to last project is basically a variation of the wrap bracelet. I'm not experienced any means but I know how to braid. I also know that you could find most of this information on the Internet. For free.
