The T-Shirt & Jeans Handbook: Stylish Upgrades For Your Daily Uniform

Synopsis

NEW CONTENT! UPDATED WITH NEW PICTURES DEEPER DETAIL ON ACCESSORY SELECTION AND MORE WAYS TO GET THE BEST YOU OUT OF YOUR EXISTING WARDROBE. Check out the follow up book the Blouse and Skirt Handbook

<https://www..com/dp/1520733909>T-shirt and jeans are the daily uniform for countless women. These casual basics are easy to wear, but they can be, well, boring. Now stylist Suze Solari has written a handbook for elevating this bland look into something special. With easy, step-by-step instructions, Suze shows how a basic outfit can be quickly transformed into a chic, timeless look for almost any occasion. They also provide fit guidelines for every body shape, as well as shopping resources to help you refresh your T-shirt and jeans wardrobe. If you've ever stared into your closet and felt clueless or overwhelmed, this book is for you. It's written for everyday women – not fashionistas – who feel they lack the style gene. "The T-Shirt & Jeans Handbook" will show you how to keep your comfy clothes, but, with a few tweaks and tricks, achieve effortless style, every day.

Customer Reviews

I think this book is very helpful for the jeans and t-shirt devotees out there, or for those like me who

just want to throw on jeans and a tee once in a while but still look pulled together. It does require some jackets and tops not in every jeans-wearing woman's closet perhaps, though. I got some nice tips from it, however, and liked it a lot. I'm sure others will .

I have lots of scarves that I love. However, I used to only wear them with dresses and suits. I tried some of the ideas in this book and I really enjoyed myself. I do feel better when I dress up. Why not when I am wearing jeans? Fabulous doesn't just have to happen on the weekends.

For years I have devoted a major part of my closet to jeans of every possible shape, color and style...and not having a clue as to what was right for me. This book does a great job of making sense of the myriad of choices out there and using things that I have and love to create that polished uniform. Suze and Michelle did a great job of breaking it all down , making it simple and real!

Really nothing new. Looks we've seen in every magazine a hundred times. I really feel that I was ripped off for the content doesn't equal the price I paid. Spend your money on one of the real books out there on style. Jeans, tee, jacket combos in a variety of color combinations. That's it. 5 pages would have covered it. It's simply repetitive styles in different color combinations and some of those combinations are jarring to the eye.

I read a lot of fashion how to books and this one was a keeper. As I transition into retirement, I've been looking for tips on being casual and comfortable but pulled together. While not the longest book, it provides plenty of photos to give you some great ideas. Good for stay at home moms, retirees, or those that can wear jeans to work. Probably not so much for the under 25 set but for anyone 30+ - buy it!!!

For non-style savvy people like me, who want to look good but have nary a clue how to go about doing that, this book is awesome. The advice is practical and easy to follow, and nothing beats those wonderful pictures of put together outfits. I highly recommend this book, but it should be read on a screen that lets you see the colors (much more helpful that way).

When jeans and a tee feels to plain or boring these tips will help. You will feel polished but still comfortable.

Easy read. Pictures were very good. I started to put some concepts into practice right away. Worth the money. Highly recommend.
