Customer Reviews

We like the music, style and level of this book. The reason I chose this book was for the piano accompaniment and there is NONE. I am very disappointed.

Love this praise book! Great for the beginner and the experienced player. The only thing that is somewhat annoying, is that some of the songs are spread out over 3 pages, so it will make it hard to play during the Worship service.

This book is one of the best books i have found for instrumental trios in the praise and worship setting.

I can not say enough good about this book. Everyone that uses this in our church just loves it.

Good resource for musicians

Was a Christmas gift and they loved it.

Great songs but does not come with piano arrangement, bummed about that.

Love this and volume I. Both books have familiar worship songs and are easy to play. My flute student and I are enjoying playing duets together!
