## Customer Reviews

Hundreds of recipes. Many more combinations of ingredients. My only complaint is that none of the recipes list the nutrition information. I can obviously look up and calculate the combined nutrition from the list of ingredients, but why is it necessary that I do that. Several books of recipes give that information for each smoothie recipe. 4 stars instead of 5 for that omission.

My wife and I received a smoothie maker as a gift this summer. I then had the same smoothie made for me for about two months straight. In an effort to expand our horizons, we bought a smoothie recipe book and it's been such a treat. Not only is there great information about the benefits of drinking smoothies but there are so many recipes here that I don't think we'll ever get to them all. One of my favorites is the Pineapple and Kiwi Smoothie, followed by the Orange-Berries Smoothie. Great flavors, aromas and colors!

For someone just starting out, I like to know what might go well together. This book makes it Easy to get some ideas and Also to make your own substitutions. The only thing that would make it better would be a list of ingredients in the index that takes you to specific recipies, or let you search for ingredients that have specific benefits.

Tons of recipes. Something in there for everyone. It's on my kindle and i use it daily

All of these recipes look so good. You may not want any carbonated drinks after looking at this book! Yum!

Awesome nutribullet recipes

Fantastic, Easy and Delicious recipes....Great Buy! Thank you.
