Age Range: 5 - 6 years

Grade Level: Kindergarten and up

Customer Reviews

Nice quality. Tried to find a set that went to 20 and this was the best I could get.

My daughter was struggling with her timed math tests. 2 weeks after using these her scores doubled. Would highly recommend.

These are great for my seven year old who is subjected to daily quick math fact testing at school. It was difficult to find cards with these larger numbers so if your child is ready for these, snatch them up.

good for learning

Son enjoys them

Good product. The yellow ink on white shiny paper is sometimes hard for my 5 yr old to read.

Grandson is really picking up this fast. Recommend to anyone with grandkids to help them out and get a good start

The quality of this product was First class. High quality, thick cardstock, easy to read print. A product that will last through at least one child learning their basic fact and likely the second child as well.
