# SABRINA, THE TEENAGE WITCH MAGIC HANDBOOK

## Synopsis

Put a little magic in your everyday life! It's not easy being a teenage witch. So I have a Magic Handbook, full of spells and rules and magic tests to help me. Now you have a Magic Handbook as well! Full of tricks and do-it-yourself science experiments that will help you understand your world--the smells, sounds, sights, and other occurrences of "magic" all around us. It's a handbook for your everyday life! Together we'll discover: Why does the scent of eucalyptus wake you up, but lavender calms you down [and which will help you on your next big exam]? Which color makes you work harder and which one makes you happy? How do we get goose bumps? What are the real secrets behind brain freeze, photosynthesis, and rising bread? I'll even show you how to make it rain in your own kitchen! It'll be fun and simple. Because not everything that looks like magic really is. Sometimes the real magic is how easy something looks! --Sabrina

## Customer Reviews

Great book for young adults and children. Has many science experiments that can be done right at home. Great for girls!

Great and reliable seller! Thank you for the book, brings back fun childhood memories for me.

Arrived as described

Really historically accurate!

This brought back memories to my fiancée because she used to own one, but her old teacher messed it up. So I bought it and she became happy.

I bought this as something to give my niece and I to do together as I used to do together as I used to have one and loved it. She loves it as well. The stuff in here is fun, and the explanations are quite accurate.

My youngest daughter LOVES Sabrina the Teenage Witch. This book is from that show. Sabrina had her own Handbook. This version is filled with scientific experiments of a kid-friendly nature, explained by the character Sabrina. Hours of enjoyment have come from buying this book, with more expected.

This book is full of fun and easy science experiments. I even used one for a school science fair and did a very good job. This book is also good for Sabrina fans who want to be like her and now they can because they have their own magic book and can pretend to make magic of their own. (I know I have!)
