## Customer Reviews

This publication was very helpful for greater context on my recent trip/project in Mozambique. Via Kindle, I was able to download it before my flight and read it en route and several times while on the ground. It would be nice to be more current -- a bit has changed in recent years -- but very useful.

This book was informative. It had good information in it about history, culture, and economics of Mozambique. It would be nice if there were more choices of books to look at.

This book was well written and very informative. I liked how the facts and timelines were broken out and highlighted. Extremely educational and engaging.
