Customer Reviews

Your best single source for training and finding a job --The GuardianI highly recommend the Teaching English Abroad book for anyone interested in teaching English. I'm the Director of a TEFL school in Prague and we consider this to be our bible! Our staff and students use this regularly for up to date information on language school contacts, types of jobs, recruiting agencies, salaries, visas, and working conditions. A definite must have! --TEFL Worldwide

THOUSANDS OF LONG AND SHORT-TERM ENGLISH TEACHING JOBS FOR BOTH QUALIFIED AND UNQUALIFIED TEACHERS DECIDING TO GO AND PREPARATION Motives for teaching English Rewards and risks Red tape Problems and how to cope Scope of opportunities What to take. TRAINING AS AN EFL TEACHER The value of qualifications Range of courses Certificate courses Directory of more than 380 TEFL courses lasting from a weekend to three years. FINDING A JOB Recruitment organisations Interviews Useful websites Gap Year opportunities

Freelance teaching Finding jobs on the spot. COUNTRY BY COUNTRY GUIDE 88 countries covered Prospects for qualified and unqualified teachers Private teaching Conditions of employment Culture shock EXTENSIVE DIRECTORIES Listing the teacher requirements of more than 700 language schools in Europe, the Far East, South East Asia, Africa, the Middle East and Latin America. Also features a further 1,000 language school addresses to contact for jobs. PLUS: First-hand accounts from English teachers who have travelled and worked abroad. --This text refers to an out of print or unavailable edition of this title.

A fantastic insight to teaching abroad, filled with great ideas. The do' and dont's to teaching in foreign countries. A must have to the your collection if you are serious about working overseas. The book also has list of courses around the world as well as the different levels of certificates but the beauty of this book it also has schools around the world that employ english speaking teachers.

The information provided in the book is a god send for someone starting out. It provides information on where to begin study wise, getting the job, local contacts in countries, and stories from others out there already. I highly recommend Teaching English Abroad for the novice and beginner.

This is one of the most comprehensive and useful sources I've found on this subject. It's modern, up-to-date with information, and is definitely a 'bible' for EFL teachers, or those who wish to become one. The first few chapters are introductory and provide some informaiton about various language degrees and certifications, and general information about working abroad and some of the potential problems/concerns you might have. The second part of the book -which takes up a majority of the pages - has a page or so devoted to all major countries in the world. For each country the author describes the EFL scene - whether jobs are plentiful, the amount of schools already in place, etc. and how difficult it will/won't be to get a work permit. There are also some leads for language schools in each country, with information about salasry, who to contact, requirements to work, etc. The unfortunate part about this book is that EFL comes across as a field that is non-lucrative and difficult to break into (especially if you're an American wanting to teach in the EU). Many of the country listings, when the author describes the prospects for teaching, are not encouraging at all, and have made me less interested in pursuing this line of work. The book, however, is a great resource if you're looking for EFL positions and further information.
