# NZ Frenzy South Island New Zealand 3rd Edition

## Synopsis

The NZ Frenzy guidebooks are New Zealand's most comprehensive outdoors guidebooks. These aren't the typical Lonely Planet-type Travel Guide filled with hotels, tours, restaurants, museums, etc etc. The NZ Frenzy guidebooks are exclusively Outdoors guidebooks filled with walking trails, waterfalls, hot springs, beaches, caves, wildlife viewing, etc, etc. NZ Frenzy details the most-popular tourist attractions, but more importantly the guidebooks contain a myriad of off-the-beaten-path locations that local Kiwis consider the real New Zealand. Using NZ Frenzy will get you off the typical well-beaten tourist pathways and into a jaw-drop landscape away from the hustling tour buses. If you're going to New Zealand to travel on a guided tour bus, or planning to stay in just one location...then NZ Frenzy won't help you too much. But, if like most travelers, you are going to New Zealand to see and explore one of the world's most incredible and varied landscapes...then NZ Frenzy will be the best money you spend on your NZ adventure. NZ Frenzy will make your NZ travels far more unique and unforgettable than any other Travel Guide you'll buy.

## Customer Reviews

We have been living in NZ for the past 9 months and were lucky enough to be recommended this book (along with its North Island compatriot) early on. We love being outside and adventuring around our new country and this book is ALWAYS our guiding light on what to do. We have been utterly astounded with some of Scott's entries and have loved every tramp, waterfall, lookout, beach, blowhole, etc. that he has ever led us to. Scott is very clear in his writing, directions, times, difficulty, etc. and adds the perfect amount of humour. We just finished a 10-day trip around the South Island over the Christmas and New Years holidays and used this book to guide our entire trip.

Scott, thank you for writing this book, we will continue to buy every new edition that you release!

Great book! Super helpful and honest. I just returned from a 3 week campervan trip to NZ and used Scott's book as my primary guidebook. Scott's reviews of off-the-road sights were spot on and his humor and writing style provided us with an honest overview of the different stops along the road. Note: NZ has little-to-no internet available in remote areas so the book's references to the online maps & tips that accompany the book are not helpful once in NZ. However, his brief directional descriptions were usually adequate enough to find the point of interest. Scott focuses on obscure and interesting sights, not so much on the well known or difficult Walks. As an avid long distance hiker, I found that combining Scott's book with information at the local I-Sites or DOC offices was the best way to get the most out of my trip. I was very glad I purchased this book over a Lonely Planet guide or something. Since I was campervaning, I had no use for a guidebook focused on hotel or restaurant recommendations. NZ Frenzy was perfect for a no-frills traveler who wanted the truth about where to stop and visit along the (narrow!) roads of the South Island!!

If you like to hike and go off the beaten track, this is the boo for you. This helped us in so many places - whether it was just to drive up to a point for a great view of Queenstown , hike through a cave or choose which day hike to do at Mt. Cook, this book really helped us have a wonderful trip. Some of the best places we visited (Like the Hokitika Gorge) were thanks to this book. We found this book worked best when we got to an area and then planned where we wanted to visit. I would also suggest using another guide book of NZ together with Frenzy - especially for planning your trip.

Great guide that reveals wonderful places offsite the beaten path. Very good for people who love the nature with a lot of uncommercialized tips to enjoy the world best countryside and wildlife of wonderful NZ. This guide is worth every pence! It has a reasoned structure so it is easy to find out all the interesting things on your individual tour and with the lettered photos and the hints to the driving you are able to find the tracking paths and have a good orientation. Thanks a lot for offering the opportunity to discover these special highlights of NZ!

Do not go to New Zealand without this book! It was our invaluable guide for our vacation, and showed us places we never would have found on our own - places that added a lot to our vacation. Scott's outings are a good combination of popular "must-dos" and fantastic off-the-beaten-path spots. His descriptions are great, and fun to read. And yes, Scott, "Old Zealand" still does exist, we

camped on that beach for two days without anyone but an occasional surfer around. Thanks for helping us make magnificent memories.

This is a wonderful book for people more interested in day hikes than history. I love the obscurometer feature. It was accurate too. I went on a beautiful hike by clear blue stream called cesspool with DOC sign as mountain bike hike that my NZ friends had never heard of and Vicki goes on tramps with her tramping club twice a week. Very highly recommended

As an American traveling solo in New Zealand, this was the perfect guide for seeing well-known spots and hidden treasures. I definitely recommend this book to anyone who will have a car while traveling, as Scott Cook goes into detail about off the beaten path treasures.

We traveled the South Island for five weeks and only got as far as Hokitika as there was so many splendid sights and walks that took us to Caves and Arches and Lakes. A great book to have by your side when traveling.
