Customer Reviews

PreSchool-Grade 4. Wick's spectacularly photographed, double-page spreads are taken from favorites such as I Spy Funhouse (1993) and I Spy School Days (1995, both Scholastic). Marzollo's cleverly written new rhyming couplets encourage readers to seek a new batch of items. Playing cards, beads, dominos, blocks, and other trinkets are all arranged attractively and with wit, yet this does not lessen the difficulty of locating the sought-after objects. Extending the usefulness of what might otherwise be a "once through" book are the "Extra Credit Riddles"—couplets that refer back to the pictures on the earlier pages, but for which no specific page is identified. Just as Marzollo created new riddles for this book, children are invited to create more rhymes and riddles of their own based on the pictures. —Linda Greengrass, Bank Street College Library, New York City Copyright 1997 Reed Business Information, Inc.

We love the I spy books, I have a disabled friend who loves to sit and do puzzles when visiting. I started buying these books for her to mix up her routine.

Very hard. Grandson got bored with it. He is very good with these puzzles but with this one it was too challenging. Maybe he'll like it more later.

my 6 1/2 year old has nearly all of these i spy books. she became interested in these kinds of challenges at about 3 and she loves to ask us to sit down with her and help her find some of the things in these books. both she and our younger child (almost 5) really enjoy the challenge and the entire i spy collection is really a well put together series. start out with the regular i spy books and then move up to the more challenging super and ultimate challenger. as adults, we enjoy them too.

These books are so fun! Provides hours of entertainment

Very Challenging

My 4 year old and 9 year old daughters both LOVE these books. They are very challenging. I sometimes can't even find the items.

great book

Love it!
