Customer Reviews

R.L. Stine's books have sold more than 300 million copies, making him one of the most popular children's authors in history. Besides Goosebumps, R.L. Stine has written series including: Fear Street, Rotten School, Mostly Ghostly, The Nightmare Room, and Dangerous Girls. R.L. Stine lives in New York with his wife, Jane, and his King Charles spaniel, Minnie. www.RLStine.com.

Goosebumps book were a big part of my childhood. I'd come home from school with a new book from the library, read the whole thing and would wait impatiently to get a different one the next day. Now my 7 year old loves Goosebumps and has started reading the books. She loves Slappy

especially. We've been sitting down to read this one together. She'll read a couple pages out loud, then I will. She is already looking forward to reading the next one. It's great that she can enjoy something that I also did when I was growing up.

My 7 1/2 year old son wanted me to read something scary. I am a huge horror fan, so I couldn't read him my books (Stephen King and Anne Rice are bit too scary for his impressionable mind, I didn't want him to have nightmares). This was his first Goosebumps book and he enjoyed every moment, even the scary ones were a thrill for him. We've finished the 2nd one, "The Haunted Car" and now we're waiting on the third he chose, a story about a dog.

When I was a pre-teen, I fell in love with R.L. Stine and his Fear Street books. I was a little too old when his Goosebump series finally came out, but figured that it would be great for the younger audience. I kept this in mind when I had two little girls, and was really hoping that at least one of them would be interested in this great author. Low and behold, after the Goosebumps movie came out, one of my daughters wanted to read the book after I explained that the movie was based off his books. We read the first one together and plan on reading all of them, in order. My daughter is only 6 but is mature enough to handle any of the "scariness" she comes across. I recommend that parents read it with their kids to see if they would be able to handle some of the things discussed (nothing like Fear Street novels). Some kids may not be into (mild) horror and may get scared, so proceed with caution if under 8 (as recommended).

We bought this for our seven year old son, he's not a huge fan of reading just yet but we are trying to help that along. He really enjoyed this book and is really looking forward to the next one in the series.

I thought the book was good. I have six year-old twin girls. One girl loved the book, the book scared the other twin and gave her nightmares. I recommend getting the audible to accompany this book for small children. My girls were able to listen to the book, while simultaneously following along on my kindle.

When I was about 11 years old I picked out this book to read. I could not put it down!!! Such a thrilling tale about a dummy who will make your heart pound and scare you out of your seat. I recently bought this book for my son's kindle and he read it in a day. The new movie really made me

miss that ole Slappy character from my youth.

This brings back so many memories of reading these as kids! I was so excited when my daughter wanted to read the book. She loves it. It came in brand new condition.

its a classic
