Pregnancy And Herpes: What Every Women Needs To Know (Living With Herpes Book 1)

Synopsis

Genital herpes affects 1 in 4 adults in the US alone. After being diagnosed with herpes over 14 years ago, Dr. Kelly thought she would never be able to have a child naturally. In this book, Dr. Kelly shares her story of living with herpes and how she gave birth to her daughter Madeline in the comfort of her own home. Dr. Kelly runs a virtual online community for women where she educates and empowers women to live, love, and thrive, specializing in the HPV virus and herpes. Scroll up and download this book, and begin your journey to healing.

Customer Reviews

Dr. Kelly debunks the myth that women living with herpes can't have safe, happy, and healthy deliveries. She writes with eloquence and warmth as she shares her personal story with a voice that is inspiring, insightful, and educational.

I admire Dr. Kelly for sharing her story about Living with Herpes. Her detailed account of her

decision to become pregnant while dealing with herpes should be an inspiration for anyone living with the disease. I was also glad to see that she included statistics along with her personal story. This can go a long way in easing the minds of women wanting to start a family in spite of having this STD. This book will give hope and courage to any woman in the same situation as Dr. Kelly.

This book is a must for any woman dealing with herpes and concerned about getting pregnant and giving birth. Dr. Kelly writes with such a clear, open honesty which will put you at ease and will completely dispel any fears, concerns or worries you may be carrying. Don't let this virus control you or your life. Learn from this book how you can make your dreams come true in a very natural way. Highly recommend this book!

Dr. Kelly takes the fear out of the unknown and paints a picture of hope and possibility! I highly encourage anyone facing similar concerns to read up and make informed decisions and walk with their heads high and bellies out.

It's like being in the same room with her! She describes her birth in detail. It's an inspiration to people with or without herpes-if they are planning on ever being pregnant.

An informative book that also offers hope, inspiration and courageousness. The personal story at the end is like "the cherry on top".
