Wicca Crystal Magic: A Beginnerââ,¬â,,¢s Guide To Practicing Wiccan Crystal Magic, With Simple Crystal Spells

Synopsis

Everything You Need to Know to Start Working With Magical Crystals Today Since the beginning of recorded history, people have revered the beauty and power of crystals and other mineral stones, incorporating them into religious artwork, weaponry, healing techniques and $\hat{A}\phi\hat{a} - \hat{a}$ of courseâ⠬⠕magic! From the quartz talismans of Egyptian pharaohs to the Aztec ceremonial masks of turquoise, malachite and jade, these natural delights have been prized by cultures all around the globe. Today¢â ¬â,¢s practitioners of the magical arts use crystals for a variety of powerful workings related to health, wealth, love, protection, divination and more. Whether it \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢s in the form of an elixir for imbibing confidence-promoting energies, a small polished stone placed with herbs in a love sachet, or a favorite crystal emitting positive vibrations in your sacred space, crystals and other mineral stones are powerful and highly versatile tools of magic. In Crystal Magic, Wiccan author Lisa Chamberlain explores the many magical uses of these natural beauties and the underlying Universal forces that make it all work. But while this guide is written from the perspective of Wiccans and other Witches, you need not consider yourself a Wiccan or a Witch to benefit from the magical power of crystals and stones. As you will see within these pages, the energies of these Earth creations are universal and can be harnessed by anyone, anytime. So whether you¢â ¬â,¢re new to magic, new to crystals, or new to both, you¢â ¬â,¢ll find this guide to be an invaluable resource for your spiritual practice. Most books about crystal magic fall into one of two categories: encyclopedias and spell books. While there are some wonderfully comprehensive encyclopedia-style books out there that describe the magical properties of hundreds of different crystals and stones, they tend to provide little or no practical information about using them in spellwork. Likewise, there are a few good practical books that focus on crystal-centered spells, but they don¢â ¬â,,¢t tell you much about the nature and properties of the crystals and stones involved in the work. Crystal Magic was created to bridge these two worlds by incorporating both elements: a solid overview of 13 widely-used crystals in Wiccan magic, along with a comprehensive look at their practical applications in everyday spellwork. This approach is especially handy for those who are just beginning to build a collection of magical stones, since the spells themselves use only the stones featured in the guide! Foundations of Crystal Magic Of course, it¢â ¬â,¢s not enough to simply buy a few pretty stones and say some magic words over them. You have to build a personal relationship with your crystals if you want to work with them successfully. This guide will help you to do just that, with plenty of need-to-know information, including: How crystals and mineral stones are formed in the Earth and how theyA¢â ¬â,,¢re classified How their unique energetic vibrations can help you shape the reality of your daily life on the physical, emotional, and

spiritual planes Profiles of 13 of the most widely used crystals and stones in contemporary Witchcraft How to choose and care for your own crystals, including clearing and charging them for use in magic How to harness the projective and receptive energies of crystals Several spells and magical workings using crystals, including elixirs, candle spells and charms By the end of this guide, you $\tilde{A}\phi$ \tilde{a} \tilde{a} , ϕ II have a solid foundation from which to build your own practice of working with crystals. But be sure to let the stones themselves guide you as well $\tilde{A}\phi$ \tilde{a} •they are natural teachers from deep inside the Earth and can aid you on your path no matter where it leads you! This book is very interesting to say the least. It is very well written and easy to understand. The author has done a great job explaining the use of crystal magic in Wicca. I use it quite often and I am very comfortable with using everything the way the author describes. I am so glad I took the time to read this book. I look forward to reading more from this author in the future.

Do you know the difference between a rock and a crystal? By the time you finish this book you will have a much better clue as to what a crystal is and how to use them in you magic practice and journey. How to select a crystal, care for it and use it properly all covered in the book. The use of crystals probably go back to ancient man and women. Ancients used them to help focus and they are still and excellent way to focus today. When you finish this book you will have an excellent foundation to really begin your use of crystals.

I'm sure there are more detailed reads, however I find Lisa's books to be the perfect "quick read" to get a generalized understanding; a nice start for the journey... hence, "Beginner's Guide". Perfect for me, as I am new to this chapter in my journey. :)

Very clean simple read, with good explanations, without overly cluttering up what all too often, can be too scientific for most people. A Geologist would find this too elemental. On the other hand it is a good start for those wanting to explore the connection between crystal vibrations and historical applications and uses. I found the authors ability to connect simple logical feelings and emotions regarding crystals and stones and apply those emotions towards aiding in the projections going forward as in magic or spell applications right on target. I look forward to reading more from Lisa Chamberlain. My head wasn't spinning from too much input. Instead things made sense.

Good introduction to Crystal magic. Not a particularly large area of interest for me, but still very informative. After reading this, I may branch out and try some Crystal magic.

This is another book in this series full of good basic info. Great for beginners, or for anyone looking for extra spells and info.

Great for beginners. For a more experienced crystal practitioner, it was a good review of what I already knew. Would have liked more on crystal use in magic and ritual. Would recommend this book to others.

I have been into crystals for decades and this is just another good reference source.
