Mile High: Up In The Air, #2

Synopsis

Book 2 of the In the Up In The Air trilogy. James and Bianca's tumultuous story continues in the sequel to In Flight. James has initiated Bianca into a dark and drugging world of passion and pain. He taught her about her own submissive, masochistic nature, and she fell swiftly and deeply in love with the undeniably charming and impossibly beautiful Mr. Cavendish, but a painful misunderstanding and the return of the brutally violent demons of her past have combined to overwhelm Bianca, and, confused and hurt, she pushes him away. It's been over a month since the shocking attack that hospitalized her, and since she told a distraught James that she needed space, but her feelings haven't gone away. Even she knew that it was only a matter of time before he would cast his spell on her again... This book is intended for ages 18 and up.

I only finished this book because I really hate to leave a book unfinished no matter how bad it is. My curiosity had me needing to know what was behind the main character Bianca's attitude and demeanor. I thought maybe that would make her less annoying. I also really loved both male characters Stephan and James. Their devotion to Bianca despite her self centeredness is amazing. Bianca's situation is absolutely abhorant and by the end I felt more inclined to understand her even if I didn't like her. It was enough that I even purchased the 2nd book in this series. She is still somewhat likeable until the end of chapter 8. At that last paragraph I gave up. She is absolutely ridiculous. I hate how she treats James. And I hate that it's okay for her to be totally closed off but she demands that he give all of himself while she insists on remaining aloof and down right bitchy

when he tries to get her to open up to him. I could deal if I saw her character evolving. But she only seems to get worse and it's infuriating to read. So yeah....waste of time and money on these two books. UGH.

I never left review in the past but I now know the importance of reviews so I'm leaving one now.For being a billionaire BDSM romance this series is my all time favorite.**You must read book 1 (In Flight) to understand what happens in this book**Blurb: Bianca and James are still trying to figure out their relationship. Past relationships from James's past are getting in their way. Bianca is concerned that she is not good enough for him. Will their relationship last? Will their pasts catch up to them?If you want controlling alpha billionaire you will absolutely fall in love with James Cavendish. The same goes for if you like strong heroines. If so, Bianca will hold a special place in your heart. This series is one of the reasons I fell in love with BDSM.

Review:When I think about it, there wasn't really a cohesive plot in this book, expect lots and lots of sex, some filler scenes and then sex again. I'm weird, I need a setting, buildup and climax for my stories (and we are not talking about those aspects in sex because, then the book had at least a million plots). Next to the lack of storyline, there were many things I would consider flaws... so why am I reading this? BECAUSE this series is really really addictive! I can't help it.Well this book is definitely interesting and creative in the sex department, it was fascinating to read where all and how James and Bianca can get it on. I was left slightly concerned though, because they're worse than rabbits, it's like a never-ending marathon with them, is that much sex even healthy anymore or even physically possible? If yes, then congratulations to the couple because they are amazing at it.I like: The woman is the one who is holding back in the relationship and the guy is totally gaga over her. It's a nice change, since mostly guys are the ones not getting their act together. It had a lot of sweet and romantic, but slightly obsessively whacky scenes and plenty of the hero swoops down to save the damsel in distress and goes ballistic scenes (even tough, Bianca didn't really need the help most of the time and stood her ground). They were cute.Don't like: Well, as I've mentioned, there is basically no plot, except if you consider lots of sex a plot. And also Bianca kind of lost my liking of her in this book.Characters:James - I'm in awe of him because normally someone like him would have me running to the hills screaming (him being mega ultra dominant), but you have to

admit there is something charming about him in an intense slightly bordering on psycho kind of way. He's needy, obsessive and quite smothering, but I forgive him since this is fiction and I guess out of reality he seems to be kind of a dream guy everyone thinks they want to have (I'm certain that would never ever ever work in reality though). Other than that, he is still loving, protective, polite, smart, handsome, rich, and the master of between the sheets tango. Bianca, unfortunately, really got on my nerves in this book. If you don't want to commit to James then you have no right to be jealous of every single female that he knows (I wouldn't be surprised if she was suspicious of the cook, maid, random woman on the street, etc - it was that bad). The constant "have you slept with her" was rude, something from his past and something she had absolutely no right to ask since she wouldn't admit that they were seriously together. He gave her no reason to doubt him and did everything to please her, she was unfair towards him. She also came across so bitter and hostile to everyone except Stephen and a few others. I understand that she had a rough past and the danger is not passed, but she wasn't likable in this book, yes, she is still beautiful, independent, hardworking, loyal, but her attitude isn't something I enjoyed. Stephen was still awesome though. I have to also agree with everyone in the story: Stephen and Javier are adorable, I hope there will be more insight into their relationship or maybe a spin-off? Overall: There are issues, but it's addicting and I need to know what will happen. If you want lots of sex in your book then this is for you.

I did not like the second book as much as I liked the first. Bianca was really confusing in the sense of how she was feeling about James. (Slight spoiler ahead) In the beginning it was like she was trying her utmost best to avoid James and really figure herself out. And then when she gets to the club it's like all she keeps thinking about is him and then easily falls back into line with him. I kind of hated to grow how much Bianca is distant from addressing feelings and turned off from talking about moving your relationship forward. What I really grew tired of was how the author wrote every woman to be a evil b8*ch towards Bianca, except for one. They would seem nice and then they would hate on Bianca and it grew to be annoying because Bianca would always be offended. Makes me question the view of women of the author. I was surprised that James' friend Lana was actually nice because everyone else was written to be mean or vindictive. James was good, but Bianca was not developed or written well.
