# Japanese Grammar 100 In Plain English

## Synopsis

Recommended for Beginners of Japanese. NEWLY REVISED and EXPANDED [March 2013] Includes FREE MP3s of all example sentences. Beginning to learn a new language can be a lot of fun. But it is important to begin your learning with structure. You don't want to end up knowing random or useless information that will sap your motivation once the initial enthusiasm fades. This book is intended to introduce important grammatical points in a structured, bite-sized way. We will introduce only the most useful grammatical points ordered by how common they are in beginner level textbooks. It is not, however, designed to replace a textbook or even a detailed grammar book. As a result, we spend little time explaining each grammatical note. Each of the one hundred lessons are designed to be completed in less than ten minutes. You won't master a grammatical point in one ten-minute sitting. You will, however, become familiar with something previously unknown. The next time you review that lesson or run across it in your textbook, you will feel like you are meeting someone you have seen or even met before. In fact, that is a good way to look at it. We believe that learning complex and previously unknown things like grammar is best done in stages: Stranger (This is an unknown grammatical point.) Acquaintance (You've heard of it, but you don't know much about its function or usage.) Friend (You know a good deal about its function and usage, but may not be able to use it smoothly in conversation.) Best Friend (You have mastered the grammatical point and you are able to use it correctly at will.) This book will help you meet the most important Strangers and move them into the Acquaintance or even Friend category. BONUS #1: Also included is an article on the top ten mistakes beginners make--learn about common mistakes before you make them. BONUS #2: Download FREE MP3s for every example given (Link is on the last page of the book).

## Book Information

Paperback: 166 pages

Publisher: CreateSpace Independent Publishing Platform; Bilingual edition (March 5, 2013)

Language: English

ISBN-10: 1482536625

ISBN-13: 978-1482536621

## Customer Reviews

Want a FREE book? Head over to [ClayBoutwell.com](#) for fiction and/or [TheJapanShop.com](#) for Japanese instructional books. FREE! Clay Boutwell and his wife Yumi are the authors of several top ten books on learning Japanese, including: Hiragana, the Basics of Japanese, and Hikoichi, the first in their Japanese Reader Collection series. They currently have seventeen titles and are slowly adding more readers and study guides as ebooks and paperbacks. And...EVERY purchase comes with FREE MP3s! His fiction includes thrillers (Tanaka and the Yakuza's Daughter), mysteries (Two Tocks before Midnight), and, yes, superheroes! (The Temporal) [ClayBoutwell.com](#) [TheJapanShop.com](#) [TheJapanesePage.com](#)

I had reservations about purchasing this book because my closet is full of authors claiming that their book is "easy" and "can teach grammar painlessly" and so forth; but I read a good review and got sucked in. I am glad I did. I am a major grammar-phobe and even though we all know it is needed, I abore it. I just HATE grammar. This book however, really impressed me. It was easy to read, understand and broken down to a level that FINALLY made sense to me! This really an awesome book and in fact Clay Boutwell has a lot of good books that breaks the Japanese language down into something anyone can understand. Kudos, Clay, this book is awesome, I wish there were a part 2. Hint, Hint. LOL

I do not care that much for e-books, what they make up in ostensible convenience, they usually lack in quality, so I do appreciate some of the comments regarding screenshots... and I agree; I've had my share of disappointments. Having said that, this particular book is an invaluable wealth of very useful, pragmatic information. I am learning Japanese on my own, so finding material that is comprehensive, and making sense of it without the help of an instructor is difficult. In my assessment if you learn basic vocabulary and apply the concepts presented in this book, you will gain a significant grasp of the fundamentals; this book has gone a long way in helping me bridge the gap of understanding from pieces of information collected from other sources. If you're someone who enjoys learning on your own, you will get a lot out of this book... and the price makes it a great deal, I would not be shy about buying other Japanese learning material from this author.

easy to navigate and straight to the point, no more than a page per subject it is certainly not a replacement of a proper textbook but it does exactly what i bought it for - to remember what i once knew but have already forgotten or to get a quick reference about something i have encountered for the first time unfortunately, apparently nobody bothered to proof-read it: too many typos and garbage characters (Kindle edition on iPad)

It is a good concept as a quick reference on many common grammar and usage issues, but it is really poorly put together as an ebook. There are many typos and layout mistakes - the body text citing a chart or image which doesn't show up until several pages later embedded in as part of a different topic. It is very confusing and frustrating

This book is so great, I just finished it. I need to have the paperback, because I can't be without it for reference. I'm actually going to order it right now. If your growing to the point of fluency, you need this book to make the transition from just learning to speaking and learning.

Figures that are clearly screenshots from the software used to edit the book are sort of off-putting. You can tell that they are screenshots by noticing that the little red spell-check squiggly line appears under many words! Content seems okay, just unpolished.

It was more than I expected!

thanks good job helps me with my class in Japanese now i can pass all my tests thank you very much
