Customer Reviews

Leave your emotions, ego, whatever it is, leave that out the door. This is raw info and tips that will guide you to get your flag. I love this book because it is written with one objective, getting laid. I will recommend this to my friend.

Excellent niche guide, well-written and professionally presented. These books are very well done.

NICE BOOK!... I enjoyed a lot, despite not all Colombian girls are the same, the segment that he describes are very, very near to the reality. He knows about the subject, REALLY!.A lot of Colombian girls (in the segment) dream to marry an American or European guy (not Peruvian, Ghanesees, etc). They wants to get a guy different than the Colombian guys, they idealize a charm princes who gives her true love, stability (emotional and economical).Colombian girls are pretty but at the contrary than the book says, they are funny and very smart... still easy impressionable girls... and most of the times they are willing to do a lot of things in order to get her "gringo"... is a shame to see too many Colombian girls are being sexually used by the "gringos"... but that's the life. That's the cost of the Colombian girls' ambition.By the way, I'm from Colombia; I have been living in USA for 11 years. ALMOST every year vacationing there... last time was Cartagena... the best of the best place to find a girl (ask to a lot of gringos even to the secret service).I recommend this book, very informative. But, remember not all the Colombian girls are the same.

Like other reviewers, I was drawn in by the preview chapters and decided to buy this, since I'm currently living in Colombia. Instead of actually going through anything you could really use, it's just recounts of his own exploits, and not in very fine detail either. A somewhat enjoyable read just for the bits in the beginning but you won't find much of anything of use in this one.

It's OK because roosh talks about the candelaria, and the putas there but does not really give you the chance to meet upscale latin@s, only if you are introduced by common friends or family, also if you want putas they're easy to find thanks to roosh & internet...but a real colombian hottie can be found in the most chique clubs and she will never talk to you, U can bang Colombia but U cannot bang her,,,she is forbidden?

I bought *Bang: More Lays In 60 Days* a while back and since then I met a Colombian girl living in my city. I wanted to learn more about what it takes to date her. This ebook is more for how to date girls while IN Colombia but a lot of the things he wrote applies to Colombian girls outside of their country, most specifically the culture chapter. I also got a lot of use in the resources he shares to learn Spanish, which I've just started with the Pimsleur course. I liked the idea of this book for adding to general game knowledge for a specific type of woman. I wasn't thinking of visiting Colombia before reading but it's now on my list.

The author had some good solid tips along with locations and lines that I will use and implement a sap.

The book looks promising from start as the author talks about the 3 most important cities in Colombia. However, the author was just bragging about how he dumped Colombian girls, how he got them in bed, and he expects you to do the same. There are some good ideas, but nothing that common sense wouldn't do for you. He never goes too specific about plans in each city, and he sounds like he makes us look like douche bags on foreign countries.
