Customer Reviews

I have a cat so this book just reminded me that the cat has me. It was fun reading the philosophy of a cat because it was so true. If you like cats then read this to get a chuckle. If you don't like cats then read so you will have more reasons to dislike cats or maybe you will change your mind and decide that cats aren't so bad after all. P.S.: my cat is watching me as I write this.

I purchased this on a whim, looking for a few chuckles in a waiting room. I did not really laugh. I did smile a bit. The content didn't even fill the entire fifteen minutes. Most of the content is made up of today's well known "one liners", given an obvious cat perspective (e.g. ...think out of the litter box...) then written in exaggeratedly poor grammar. The author "borrowed" more from the Charlie Chan movies of the 1930s than from Confucius. Even Shakespeare, however, was not immune (...a mouse, a mouse, my kingdom for...). I thought Oh Vile Vial - two stanzas to flea control product - was quite entertaining but not worth the \$0.99. I must remember to use my Prime freebie for this sort of thing.

This book is full of well known sayings as retold by a cat. For example, "A penny saved is money you should have spent on a cat toy." and "Purr softly and carry a fluffy tail." Also includes a cat's "definitions" of both real words and made-up words. Very short and quick read, but not as cheesy as I thought it would be. I did get several chuckles out of it.

I love cats, I have two indoor and one outdoor that I have taken care of for three years since it found its way into our yard very thin and frail. Cats make me smile can bring me out of a down mood and their purr is just pure love. This book is like the personalities of my cats in word form and it made smile. I loved every part of it and I am sure that any person who adores cats will love this book. Children will think it is funny as they try to put the cat sayings to the real ones. The Christmas song was adorable. The part from "Mary Poppins" was one of my favorites and this will be something that I share with grandkids when when I have them. So thank you for a wonderfully written cat perspective on the world!

I found this book for free one day and, even though I'm not a fan of those cutesie cat pictures where people have added captions in "cat speak" (to me it looks more like a very uneducated person or someone who has just started learning English), I thought I would give it a chance. It's actually pretty cute. It's a compilation of many quotes, some of which are famous, that have been cat-ized ... and several of them made me laugh. It's a quick read and not too bad

Think outside the litter box, don't fight cats behind glass if they look suspiciously like you, enjoy reading an ode to the monthly Vile Vial, smile through felinely mangled literary references, imagine the experiments claws can perform with stray toilet-paper rolls, and more. If you like to catapult catastrophic word definitions into catscradles of mystery, or if you just like cats, you'll enjoy the quite sharp humor and feline philosophy of this neat collection. Don't miss the cats' Twelve Days of Christmas at the end. Fun for all, especially cat-lovers. Disclosure: It was free. I loved it.

Amusing, serious, contemplative, loving, knowledgeable, far-sighted, realistic, thought-provoking, insightful, respectful, and so much more. Only an experienced cat-lover could write such truths about the creature "the cat" that I've all come to love & adore. The only thing better than reading this little book, is actually living with a personality filled cat or better yet, several cats. They start out being just cute to look at, then they progress to being fun to watch. Everyday holds a new treat for the adventurous cat. It is a wonderful thing to wake to to one's cat gently biting one's nose because it's time to eat.

This wise feline provides the reader with hilarious insights into a kitty's mind and actions. Cat lovers are sure to see something of themselves and their cats in this delightful little book of wisdom from Confucius Cat. I especially liked his "Pavlovian Response for Cats" and also how a tail makes a perfect duster for a computer screen! Sounds familiar? Some of his definitions are also laugh out loud funny. Get the book and enjoy some insights and some laughs.
