Customer Reviews

I don't know how this woman calls herself an event planner when she obviously hasn't ever written for public relations. Her writing is poor, repetitive, and hard to understand. I'm sure there are good skills for event planning throughout, but I couldn't get past chapter 3 due to the horrid grammar.

I had just started reading it but I can already see the usefulness of this book. unfortunately I have

the Kindle version and it did not come with a companion CD. Is there any way to access the files or download them from somewhere so I will have them?

The CD was not with the book!

Brilliant book I am so delighted with it. There is lots of helpful guidance that has helped me yo shape my business.

A must have if you are in the event planning industry!

Great resource - reasonable price

Very informative. I love it

I bought this book hoping that it will provide me with a comprehensive guide to event planning since I am a beginner. The author gave some really good insights. Love the "Green Planning" section. Overall, it is an excellent source of information.
