Customer Reviews

We have several of these Fisher Price lift the flap books and will be buying more. While they may not be my favorites, our girls love them and often pull them off the shelf to read on their own. They're usually the first books they reach for when it's time for bedtime stories. This one's pretty simple, it shows Noah and his animal friends (including penguins and kangaroos, which my wife considers unrealistic) building the ark, boarding the ark, surviving the flood (no mention of everyone else in the world dying), seeing the returning dove, and finally landing. The colors are bright, the illustrations are cute, some of the flaps are clever and our babies love them. The flaps are well-made and we've yet to tear even one. You can't ask for much more.

I picked up this open-the-flap book to go along the the Fisher Price Noah's Ark toy that I bought my grandson. My grandson loves the book -- and the toy -- and it is especially fun to see him match up the animals from the toy with the book. Highly recommended.

My 14 month old now has 4 of these Little People flap books and she loves them. She started looking at the 2 we had (farm and transportation) around 8-9 months old and pretty much had them memorized to the point I could say "cow" and she'd open the flap with the cow hidden behind it (etc). So I decided to get her a couple new ones (zoo and Noah's ark). She loves them just as much and is on her way to memorizing them too. Great book for learning names of animals, vehicles, etc, for motor skills, brain processes (figuring out which direction flaps open), and memorization. In short, I'd highly recommend these books for all babies and toddlers.

These Fisher Price Little People lift-the-flap board books are the best! Our 18 month old grandson absolutely loves them - especially the ones with animals. He has about a half-dozen of these books and already knows under what flap to find what animal - even the ones that don't have an obvious (to an 18-month old) clue on the top of the flap! Great learning tool for animal names, sounds, shapes, colors and memorization (where things are behind which flaps). Also helps to develop attention span - our little guy will sit on my lap "forever" looking at these books. Great for one-on-one time too with your child or grandchild.

This book is awesome! My 2 year old grandson is a VERY busy little boy, and I can hardly ever get him to sit still long enough to read him a story, but this book not only held his attention, but he was SO excited to open the little flaps to see what was under them! He couldn't wait to get to the next one and the next, etc. He loved all the little animals too. This book kept him occupied and excited for a very long time, and I can't wait to get him another one of these flap books and see his reaction! Oh, and one more thing: his older siblings (6 and 8 years old) were in the room while I was reading the book, and although they were occupied with other activities, they slowly began abandoning what they were doing and gravitating toward us, and they got involved in the book as well. I think it was because the 2 year old was so excited that it drew them in to see what was going on. I would definitely recommend this book for young children!

Ordered this awesome book, and the Noah's Ark Little People ark and animals to go with the book. We read the story, and then play with the various pieces and review the story again. Great product.

Very well made. If ordering the ARK, do get the book to go with it. Make sure it is this one. There was another book out there, which the reviews said was very strange in its story line. This one was more true to the Bible story of Noah, and had beautiful illustrations.

Great book for kids, they provide so many flaps which kids love.

This is one of my toddler's all time favorite books. It has colorful pages and sooooo many flaps! He loves opening and closing all the flaps over and over again. The animals also look like some of the Little People animals. His favorite toy is the little brown cow with white spots. He was so excited to find the cow in this book.
